Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

East Windsor School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The East Windsor Public Schools strive to provide every student with the skills needed to find their own success. It's part of our approach, called "Portrait of the Graduate." The approach begins in Pre-K and by the time high school graduation arrives, our students have become curious, motivated problem-solvers. They are open-minded critical thinkers and healthy decision makers. They are resilient, reflective, and socially-emotionally aware. Most important, they are civic contributors, clear communicators, and aware of the world around them.

Regarding our special education programs and services for students with disabilities, the East Windsor Public Schools continue to improve delivery of services by: Consistently looking to recruit and hire highly qualified staff.

Implementing Acadience Math progress monitoring to special ed teachers to better inform instruction to increase math skills.

Creating a full day 4-year old integrated preschool program to better prepare students with and w/o disabilities increased access to early childhood educational experiences.

Installing a life skills program at middle school to provide functional academic and adaptive living skills to students with significant cognitive disabilities. We ramped up efforts in truancy prevention by creating a task force of principals, administrators and directors working across the K-12 continuum to help parents and students understand the importance of being in school every day. Internally, this work includes internal data collection, research, and analysis. Externally, this includes an informational awareness campaign that helps parents and students understand how chronic absenteeism can impact success for students in school and in life.

This dovetails with our approach to engage families in all grades and at all levels to be a full partner in the education of their child.

Teachers have the opportunity to receive training in home visits through LEAP and PTHV. We have 30 faculty trained to participate in these across the district. Teachers also receive professional development related to responsive classroom and restorative practices, offering core foundational skills in relationship building in the classroom and over the phone with parents.

The school district annually surveys students and parents related to instruction and school climate and seeks feedback during the year through forums, parent nights, and parent teacher conferences.

Parents are asked to participate in the community advisory board at East Windsor High School which is meant to gain an understanding of what local community and business leaders seek in their high school graduates. The improvement of school programs across the K-12 continuum is discussed on a monthly basis at Board of Education meetings and at the Board of Education Curriculum Council. In improving our efforts to support parents working at home with their children on learning activities, the district has increased their communication to all parents related to academic progress and has provided tools for students and parents to continue accessing instruction outside of the classroom. Programs like PowerSchool, Google Classroom, Exact-Path, i-Ready, Reflex, Frax, etc. allow students to continue their skill building and allow parents to monitor and support their child while playing an active role in their child's academic growth.

Efforts to Reduce Racial, Ethnic and Economic Isolation

In an effort to reduce racial, ethnic, and economic isolation, East Windsor Public Schools is actively engaged with the Open Choice program and has extended efforts to expand seat offerings to children at the early grade-levels (PreK and K). During the 2023-24 school year a total of 75 students enrolled in the program from PK-12.

The district School Climate and Equity Coordinator and other administrative staff participate in school choice fairs and family events hosted by RSCO in an effort to connect with the Hartford community and to promote our school district to interested families. During the 2022-23, EWPS participated in 2 open choice fairs, 4 RSCO family fun nights, a back to school block party at the CREC Welcome Center, and EWPS even hosted 2 of their own events to network with families and community. Relational home visits were conducted to welcome new families to the district.

The social-emotional learning curricula programs provide opportunities to celebrate diverse backgrounds and experiences. Guest speakers have engaged our students at the middle school to raise awareness of the importance of cultivating relationships and celebrating diversity. All libraries contain materials that are representative of people of different backgrounds. At the high school level, a diversity club meets regularly to organize activities to celebrate the diversity of the community. During the 23-24 school year, EWHS secured a grant to introduce the EdRising program to our students. The program is designed to promote teaching as a career option for young people, with an emphasis on encouraging students of color to consider education as a career option.

East Windsor Public Schools is a diverse school district with students of color comprising roughly 45% of the student body over the past three years.

Equitable Allocation of Resources among District Schools

Administrators provide a building based budget driven by student programming and staff needs. The district utilizes both local and grant funds to provide appropriate curriculum, instructional and building based needs. As outlined in the EWPS Strategic Plan, under Strategy #3 titled, "Ensure equitable access to resources," we continue with our approach to use non-exclusionary discipline, expand access to free and reduced breakfast and lunch for all students, review data related to program access, expand our College and Career opportunities, and provide professional development to teachers and staff in these areas.

Another high focus area for us is addressing access to technology, and ensuring all students have access to transportation to and from school. We monitor this through performance indicators that include but are not limited to discipline data, course/program data, food service participation rates, assessment meetings, and PD selection. Students participate in the course selection process and are assisted in this process by their guidance counselors and case managers to ensure equity in subject matter.
