Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Colchester Public Schools (CPS) has developed school improvement plans that are aligned with District goals focusing on increasing academic growth and supporting students' wellness. CPS has embarked upon a student wellness initiative that has engaged community members and families in the design of a vision for supporting student wellness. The vision will result in a strategy to support students to feel connected, accepted, and ready to learn.

CPS has also provided all special education and related service staff Quality Training in the writing of Individualized Education Plans (IEPs), has conducted a review of and built a strategy for improving our Life Skills, Learning Strategies, and behavioral programs, and continues to provide individual staff training in explicit instruction. Bacon Academy high school has also provided professional development to general educators in the implementation of student modifications and accommodations.

Colchester has active PTOs at all four buildings, gathers input from parents on the design and implementation of curriculum, and partners with other town agencies to provide summer learning opportunities for parents while students are read to during the summer months.

Efforts to Reduce Racial, Ethnic and Economic Isolation

CPS has expanded its efforts to reduce racial and ethnic isolation by training all certified and paraprofessional staff in the Foundational Work on 9 Identities, Oppression, Diversity and Inclusion. With partners at the National Conference for Community & Justice (NCCJ) the District Student Wellness Committee is seeking additional training for certified staff in response to bias incidents in our schools. NCCJ is also supporting our schools with the development of student leadership by training cohorts of 15 to 20 students to become a leadership team to improve the level of acceptance of all students at the middle and high school. Bacon Academy high school extended upon this initiative by connecting other students from Capital Prep and Classical Magnet School in the development of school-wide plans to take action around concerns related to acceptance.

The middle and high schools also offer student extra-curricular clubs designed to reduce bias, including the Gay Straight Alliance, the Peer Advocacy League, Student Ambassadors, Unified Sports and Unified Arts.

To reduce economic isolation, CPS is actively working with neighboring towns to make Bacon Academy a designated high school. Students from Norwich and Franklin already attend Bacon Academy high school, and we hope to expand that option to other neighboring towns.

Equitable Allocation of Resources among District Schools

The development of the budget is a collaborative process that begins with administrators and directors working with their respective leadership teams to identify needs in alignment with the mission of CPS. The administration then works with the central office team to balance resources across schools to develop a final proposal that is presented by the Superintendent to the Board of Education.

Central Office administrators work with school principals and their Literacy and Math Instructional Coaches to review student data and identify needs for Federal entitlement grants. The administrative team meets regularly throughout the year to make adjustments to spending as needs change. CPS also works diligently with the State of Connecticut to secure grant funding to support our community with the School Readiness program at both the CPS Pre-School and another local preschool provider. This program supports our youngest students to prepare academically for kindergarten, but also to support students to develop social and emotional skills.
