Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Hampton School District proudly implements a multiage program. Through this multiage approach, teachers are able to meet the needs of all learners in an individualized fashion. This greatly improves the educational experience for all students, especially those who are part of our special education program. Students engage in project based learning that crosses and connects to their specials and allows for students to explore and experiment in a manner that enhances their curricular experience. Also, Hampton Elementary School has selected a new literacy curriculum approved by the CTSDE. HES was one of five districts chosen to participate in the Science of Reading Networked Improvement Community (SoR NIC) and already began implementing strategies to enhance student's literacy achievement.

Additionally, Hampton Elementary School has enlisted a strong group of parents running and participating in the PTO and has brought exciting new events. While a small learning community, the Hampton Elementary School parents have been able to provide a number of family and student engagement activities. This has included weekend events such as Touch a Truck where families, staff, and the community were able to engage in an exciting and educational experience.

Furthermore, HES participated in multiple school-wide field trips where parents attended in support of the learning experience; and our PreK organized monthly Family Fridays where families came into the classroom and engaged in activities with their child.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Hampton Board of Education has a Minority Recruitment and Retention Sub-committee that is focusing on two specific goals.

Goal #1 is to use popular websites to advertise all open positions, public all position on our website itself, use our network of key players in the field of Education, and the area universities, especially Eastern Connecticut State University's School of Education in order to locate the very best candidates who are representative of the total area's population. These efforts are aligned with the school's Increasing Educator Diversity Plan.

Goal #2 is to offer to our classroom teachers local members of diverse communities to deliver lessons on their cultures and traditions that elementary level student will understand as well as enjoy. There are funds set aside to allow for field trips as appropriate to support these lessons.

In addition, all of our teachers have access to PBS Learning Media that supports teachers with appropriate content and specific grade levels of media teaching experiences for our students so that they can be exposed to a vast variety of people and cultures.

Equitable Allocation of Resources among District Schools

The Hampton School District has one elementary school; therefore, all resources are allocated in an equitable fashion to all grade levels from Pre-K to Grade 6.
