Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: 0

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

Connecticut	40	41	50
National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Graduation Rate Gap	.	.	.	.	.

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

Before and throughout the 2020-21 school year, the administration conducted a series of informational Zoom forums to address questions and concerns regarding the reopening plan, instructional focus and adjustments to curriculum, as well as how parents can support their children during remote learning.

Throughout our Hybrid Learning and fully Distant Learning periods, teachers provided a schedule and/or list of lessons, learning tasks, and long-term projects that both students and families could access through Google Classroom. Teachers and paraprofessionals also set up virtual office hours via Zoom so that students and parents could check-in for assistance as needed.

Fields Memorial School adopted Bridges Mathematics, a new math program in grades K - 5, which proved to be invaluable during Covid related shut-down periods. Teaching plans, student worksheets, and games were accessible via the Bridges website. Parents of fully remote students were able to read and provide guidance for their student(s), and students were able to participate in the online programs that practiced the skills being presented. The implementation of the Bridges program this year allowed both teachers and families to easily adapt between in-school and remote learning as needed.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Through literature, social studies, and the social-emotional learning curriculum, students were exposed to information about different cultures, customs, and traditions, helping them to understand both the diversity and commonalities represented in the community and the world.

With the use of state and federal grants, Fields Memorial School was able to ensure that every student had access to a device, charger, and wifi to engage in remote learning. A system of drop-off and pick-up in the school's foyer was created, allowing students and families to access materials and texts needed to complete assignments during remote learning periods.

Equitable Allocation of Resources among District Schools

Bozrah has only one school in the district. FMS is a PK-8 school with approximately 172 students. Secondary students attend surrounding high schools on a tuition basis. All funds provided through the annual budget process, grants, & donations go directly to the operational & educational costs of FMS. During the 2020 - 21 school year, the district came back 4 days a week. PK and Kindergarten did a ½ day sessions to accommodate social distancing guidelines. Grades 4 - 8 practiced an A/B model. Wednesday was a remote day to allow for deep cleaning & sanitizing between cohorts. All of our IEP students came in 4 days a week regardless of grade level. FMS designated one full-time teacher to support full-time remote learners in grades K - 5. Each day, middle school teachers met with alternating grade level students in a designated Distance Learning support period. Teachers conducted virtual class meetings on Wednesdays & connected with full-time remote learners or students in need of more contact. In mid-January, we brought grades 4 & 5 back 4 days a week, and by March, all students were back 4 days a week. We began the year with 48 remote students. By May, 8 students remained remote.
