Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Seymour Board of Education approved the mission guiding the district's efforts to fully know our students as learners, to educate and inspire them through a range of experiences that reflect high expectations for learning and prepare them to meet the challenges of an ever-changing world. Seymour Public Schools are committed to promoting individual student learning through differentiated instruction and more challenging learning situations. We strive to enrich our K-12 curriculum development and implementation to create more opportunities for students to collaborate and tackle relevant and challenging learning situations in all content areas of the curricula, both socially and academically, so they can become well-rounded individuals who show compassion toward others and who can confidently confront and solve problems with which they are faced. Teachers use Scientifically Researched Based Interventions academically and behaviorally to provide support to students identified through a Universal Screener, ongoing formative and summative assessments, student work and by the Progress Monitoring Team. Responsive Classroom is used in K-5 classrooms. At the middle and high school level, Positive Behavioral Interventions and Support is used to provide students with multiple levels of support, socially, behaviorally, and academically. Our teachers and leaders engage in regular data reviews to evaluate program effectiveness as well as individual student progress, especially of those receiving intervention and/or special education services. Students' instructional environments may include general education, special education, in-district special-programs, or other appropriate placements. At the preschool level, young children are served in integrated preschool classrooms. In addition to special education services, the district also provides related services to students with disabilities. These services may include specialized classrooms supported by a special education teacher, paraprofessionals, psychologists, counselors, speech, occupational and physical therapy, social workers, BCBA consultation, counseling, transportation, the use of specialized equipment, mental health teams, and life skill sessions. At elementary school and middle school levels, transition to kindergarten, middle school, or high school are strategically planned and implemented. At the high school level, transition services are provided to assist students and their families in planning for post-secondary options including additional education and/or employment. Family engagement is prioritized; we believe that collaboration with parents and families is the key to achieving and maintaining success. We continue to strengthen school, family and community partnerships across all levels, elementary, middle, and high school. Educators partner with students and families to provide academic strategies, resources and support toward improved learning experiences and outcomes with an increased focus on social-emotional learning. Parents and the community are invited in throughout the year. Newsletters containing valuable information is sent home from teachers, principals, and the Superintendent's office. Surveys are used to gather feedback on how best to support families. Our goal is to ensure families have the necessary tools to support their children's learning outside of school.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Seymour Public Schools are committed to fostering the understanding of various racial, ethnic and economic groups in our society and world by valuing, respecting, and welcoming diversity. Our mission is to fully know our students as learners, to educate and inspire them through a range of experiences that reflect high expectations for learning and prepare them to meet the challenges of an ever-changing world. Educators incorporate learning activities to celebrate diversity in curriculum and instruction. Through the delivery of a rich academic curriculum as well as social-emotional learning programs such as Responsive Classroom and Caring School Community, students are provided with opportunities to embrace differences in the learning process in a safe school climate. Seymour Public Schools continue to educate our students in ethnic, cultural, and religious diversity through our curriculum; school-based clubs, as well as countless enrichment activities throughout the school year. Our school district is a 1:1 technology device system, allowing all students access to technology to work from home or in school on platforms used by the district in math and literacy. Our staffing model has provided a school counselor at each of our elementary schools to offer an introduction to comprehensive school counseling and related supports and services for families beginning at the elementary level. Programs in the fine and performing arts promote understanding of cultural diversity. In addition, visiting presenters provide cultural and historical presentations to students. Service projects heighten student awareness and concern about racial, ethnic, and economic isolation. Courses offered encourage students to explore diverse opportunities of culture, ethnicity, and career paths, including rigorous manufacturing, health, business, career and technology education, advanced placement, early college experiences, and over thirty dual certification classes. Seymour Public Schools values all students and is very proud of our diversity. There is no place for hate, racism, and prejudice in our schools and these have never been and will never be tolerated. Our students are encouraged to turn to their teachers and counselors to speak about anything that is on their mind.

Equitable Allocation of Resources among District Schools

The goals of the Strategic Plan guide the budget process and equitable allocation of resources. The budgeting process begins in early October when principals review needs and priorities with input from school staff. Each principal presents a detailed request to the Superintendent. During this collaboration of meetings, each request is considered in relation to the need and impact of student learning. Each principal personally prepares their portion of the budget to the BOE which allows for further discussion and review to ensure the budget meets the school needs in a fair and equitable manner. Input from the town and parent community is obtained whereby budget direction and various initiatives are discussed prior to a formal budget preparation. Throughout December and January, the Superintendent's recommended budget is presented to the Board of Education at a budget workshop in the context of long-term goals and initiatives with an emphasis on the linkage to the district goals and the impact on student learning. Information is presented at formal meetings during the annual town budget process. The budget process concludes with the passage of the education budget referendum in May.
