Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Stamford Excellence has fostered partnerships with related service providers to comply with all state and federal regulations pertaining to the education of students with disabilities, as well as scholars' IEPs and Stamford Public School policies. Scholars receive 100% of their required services as well as academic support given by our certified special education teachers. Our teachers attend annual review meetings, PPT meetings and worked with the districts special education team and our families to identify scholars who need to be evaluated. Further, parents are fully informed of their parental rights and due process. Our special education staff receives specialized training from a district level as well as attending state provided training. Workshops have been provided to families and parents to improve their knowledge on special education and their rights as advocates for their scholars.

Stamford Excellence continues to daily monitor scholars attendance. If a scholar is absent there needs to be documentation sent in and uploaded into our school data system. When a notification to the school hasn't been made, office staff call the homes by 9am to inquire as to what is happening. Attendance is reported to parents on bi-weekly progress reports and used in promotion on report cards.

Our parents were engaged in a variety of activities including concerts, curriculum nights, parents workshops, town hall meetings and parent requested meetings. We held specific parent workshops on Google Classroom and a variety of online platforms that we use. At our town hall meetings parents shared suggested ideas and opportunities for our school that we implemented into everyday learning.

We attribute our outcomes to the hard work of our scholars and staff, our partnership with families, and our adherence to our school model that promotes, data-driven, differentiated instruction whether in person or remote.

Efforts to Reduce Racial, Ethnic and Economic Isolation

As a single site equal opportunity employer, Stamford Charter School for Excellence (Stamford Excellence) employs staff on the basis of their qualifications, competencies, education, experience, records of accomplishment, and references from previous employers. All candidates participate in a rigorous screening process and all decisions are based on merit and school needs. In no case does the school discriminate on the basis of race/ethnicity, gender, disability, marital status, sexual preference or identity, religion, or any other factor not directly related to the candidate's ability to perform his/her professional duties. Similarly, any form of discrimination or harassment is not tolerated at Stamford Excellence. Any individual who violates these policies will be subject to immediate disciplinary action, which may include termination without compensation. Stamford Excellence embraces diversity in its personnel and aims to attract, recruit, and hire candidates with an array of talents, experiences, and backgrounds. Similarly, we maintain an open enrollment policy with admissions determined by a third-party blind lottery.

The mission, vision, and programs at Stamford Excellence were specifically designed to provide the necessary supports, challenges, resources, and learning environment to ensure that every child has equitable opportunities for success. The educational program addresses the individualized needs of the students, inclusive of students who receive free or reduced-price lunch, students identified as requiring special education, and students who are English language learners. Key strategies include an inclusive, smaller learning environment with a reduced student-to-teacher ratio; the use of real-time data to inform flexible, differentiated, instructional groupings uniquely tailored to each student; and personalized learning plans that provide evidence of each student's achievements, strengths, areas in need of improvement, goals, and progress. These strategies have proven effective and propelled our scholars to historically attain 95% proficiency in Math, 85% proficiency in ELA on state SBAC exams.
