Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Stratford Public Schools aims to create a learning environment in which all students feel welcome and achieve success. In the 2022-23 school year, SPS was identified as an Alliance district and developed a plan to address areas that bolster staff performance through talent development; student academic performance through targeted interventions; and culture and climate through student, family and community engagement. Resources provided through Alliance funding included among other things, support for kindergarten classrooms, districtwide accountability, and family and community engagement.

A complete revision of the district MTSS process was undertaken, involving K-12 staff supported by central office administration in collaboration with CES. School-based attention was focused on social emotional needs and supporting student access to grade-level content. Grant funds were identified to provide mental health personnel and supplemental academic supports including in-school and after-school tutoring. Student and family engagement concerns were addressed through the use of grant funding to continue outreach teams for grades K-12 in an effort to reduce chronic absenteeism, truancy, and connecting families with resources. The Alliance grant funded a Community and Family Engagement Specialist position responsible to lead programs for families and work with chronically-absent students at the building level. Summer programs continued at no cost to families for academic and social emotional support and to re-engage students with teachers, peers and academic programming and community resources. These programs were well-attended. SPS was selected to participate in the first cohort of the Science of Reading Master Class, focused on preK-3 literacy. In addition to the Alliance grant, SPS was awarded a grant for Project Uplift which funds resources in response to community violence, school avoidance, and substance abuse. The sixth school-based health clinic was opened this year. All secondary schools and two elementary schools have a clinic to service student needs.

Typically, most Stratford's special education students are educated in their home schools according to the principles of least restrictive environment following goals and objectives aligned to standards-based curricula. The pandemic created a challenge requiring the close coordination and collaboration of district and community resources. Additional personnel were hired to assist in addressing this challenge. Special education personnel continue to work with core academic areas through co-teaching and collaborative initiatives (SRBI) and continuous improvement of district programs. SPS also provides professional development opportunities for both general and special education staff to be trained together in areas of behavior management and strategies for working with students with specific disabilities.

Stratford Public Schools completed the first year of the current strategic operating plan. All school improvement plans and district-level work were aligned to this document and progress was monitored throughout the school year. The district received a third Barr grant to further the work in defining and implementing the with an emphasis on SEL, student success plans, high quality instruction, strengthening community partnerships, and staff diversification.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Stratford community and public schools continue to become more racially, ethnically and economically diverse, specifically 72% students of color and 9% ESOL students. Schools partner with local community agencies and institutions in a town-wide effort to affirm and support Stratford's rich cultural, religious, and ethnic diversity. Examples of efforts to reduce racial, ethnic and economic isolation involving the community include: the appointment of a Family and Community Engagement Specialist responsible for providing support in formulating, developing, implementing, sustaining and evaluating the District's parent and community engagement programming strategies to enhance student success and assist with addressing inequities. In collaboration with the Supervisor of Diversity, Equity, Inclusion and Engagement the FCES has begun to create, strengthen, and maintain the bridge between the school and community in the efforts of student success in academics, attendance, and social-emotional development. The engagement team and other staff are vital members of several Stratford Community-based organizations. They support the Youth and Family Advisory Board, the local council for positive youth development, the School Readiness Council, and the Community Health and Wellness subcommittee of the Juvenile Justice Review Board in collaboration with our new Project Uplift Program (Pre-JRB programming). Stratford staff and students participate in school-based programs and courses to improve school climate, including Welcoming Schools, RULER, Restorative Practices, Responsive Classroom, Yale's Model UN, career development multicultural programs and implementation of courses such as "Conversations on Race" and the CSDE "African American/Black and Puerto Rican/Latino Course of Studies". The TEACH CT and CES programs improve efforts to recruit, hire, and retain diverse teachers, administrators, and staff. The SPS Dual Language program completed its 6th year, culturally responsive teaching and learning professional development continues, book studies and review of current district curriculum and policies through an equity lens continue with an emphasis on reducing racial, ethnic, and social isolation.

Equitable Allocation of Resources among District Schools

Budget requests for SPS are submitted by individual schools and departments and reviewed by central office staff to ensure equity between schools and among levels and are in alignment with the Board of Education's District Goals and District and School Improvement Plans. Central office staff, including Superintendent and Chief Operating Officer, prepare a final budget (after discussion with building principals and district coordinators) that is submitted to the BOE for review and approval. Allocation of district resources is determined by individual school needs as justified in the zero-based budget submissions. Capital improvement and equipment needs are reviewed through the use of the Plant/Planning Committee and adoption of a five-year capital improvement and equipment plan (CIP-CEP). The CIP-CEP is presented to town officials for incorporation into budgetary deliberations through a liaison committee between the Town Council and the Board of Education. SPS strictly adheres to state and federal guidelines in the disbursement of those funds. Data are reviewed annually to ensure each school has an equitable distribution of resources to achieve the district's goals.
