Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

In 2022-23, NPS continued to follow its five-year strategic plan, Future Ready, that reflects the needs and desires of families, students and the community. The plan focuses on 6 priority goals: strengthening student success plans; developing a 3-5 year facilities plan; streamlining human resources, finance and business operations; cultivating instructional leadership; increasing student opportunities and ensuring all students have access to high quality programs and support; and providing families with equitable opportunities to access resources and programs.

Improving programs and services for students with disabilities was a focus under the strategic plan. The work for this school year included transitioning 100% of student IEPs to the new CT-SEDS platform and continuing to provide high quality IEP training for all special ed and related services staff. Evidence of the belief that special education is a service and not a place, is embedded in all professional development and instruction practices. The district also kept its focus on the expansion of specialized learning programs with an emphasis on inclusive instruction and implementing SRBI at K-8 schools. The importance and capability of the new NPS Family Center was fully realized this school year after opening its doors in early 2022. A centralized location for family-facing school services, the NPS Family Center helps establish lasting relationships and meaningful family engagement throughout a student's academic career. Open year-round, including evening and weekend hours, the Family Center provides easy access to register students, get information, voice concerns and resolve issues. Bilingual staff are on site to assist families and provide language testing. NPS's special education ombudsperson, fluent in both English and Spanish, organizes support groups, and helps connect families with services and programs. By collaborating with other city agencies and community partners, the centralized location also streamlines services for families across the city. Plans are also underway to establish a health center at the Family Center to provide healthcare access to students.

Regular communication includes district and school websites, an auto call system, text messaging option and e-blasts. District and school social media accounts include Facebook, Twitter and Instagram, an NPS en Espanol Facebook page. A new communications team improved the overall content of communication through quality, intention, style, prolificacy and adaptability. The team implemented new styles of videos from longer-form content to short "Reels," including video showcases highlighting each school in the district. Schools and the district ensure that translators are available to families at conferences, parent meetings, open houses and Board of Ed meetings which are live streamed on the NPS YouTube channel, with options for Spanish and Haitian-Creole, and past meetings are available on demand. To deter truancy, families are notified of student absences via School Messenger, and school administrators reach out to families directly to address ongoing issues. Parents can monitor attendance through the Parent Portal. Working with the Communications, the Operations team launched an Attendance Matters campaign to inform families of the importance of students attending school daily starting as early preschool.

Efforts to Reduce Racial, Ethnic and Economic Isolation

In 2022-23, NPS continued its comprehensive Equity in Education initiative, working with Dr. Edward Fergus of Temple University. The Grading for Equity Committee structure composed of various stakeholders completed the book study of "Grading for Equity" by Joe Felman and reached consensus around six recommendations that were presented to the Social Justice Ad-Hoc and Policy committees for review and potential adoptions. Under our deputy superintendent for excellence, equity and inclusion, four district wide events were created and celebrated to build community and celebrate diversity around Hispanic Heritage Month, Black History Month, Women's Month and Pride Month. To address growing enrollment, a comprehensive school building program is under way. A new school in the South Norwalk neighborhood opened this year, finding a temporary home in the former CMS building. At least three community meetings were held to gather feedback from students, families, staff and neighbors about a new building on property purchased in May 2022.

Construction on a new school for Cranbury Elementary is nearly complete and will open in the fall. The plan is to break ground on a new Norwalk High School in February 2024. In addition to neighborhood schools, NPS has expanded choice program options, including Montessori, an intra-district Bank Street magnet, and a dual-language elementary. The Center for Global Studies offers studies in Japanese, Chinese and Arabic. In partnership with IBM and NCC, students can earn both a HS diploma and associate's degree at P-TECH Norwalk. NPS offered school choice to students and families at all three levels this year. The district is also excited to have several middle schools and elementary schools qualify as candidate schools for the International Baccalaureate Primary and Middle Years Programs, which will launch in Fall 2023. Recruitment and hiring practices encourage candidates from all backgrounds and ensure fair and equitable treatment in alignment with our minority recruitment policy. Career fairs and recruitment efforts reach beyond the local area to identify qualified educators.

Equitable Allocation of Resources among District Schools

Norwalk Public Schools procedures for distribution of resources strives to ensure that each school receives an equitable level of material and financial resources. School Governance Councils operate at every school, providing additional opportunities for parents, staff and community members to advise district and school leaders.

NPS operates under a Student Based Budgeting system, which provides a per-pupil expenditure based on the student population numbers in each school. School principals have been trained in Student Based Budgeting so that they have the knowledge needed to allocate those resources according to the needs of their individual schools.

Staff members are assigned based on the number of students and programs operating in that individual school, in accordance with contractual class size limits. Additional equipment, textbooks and supplies are purchased centrally on behalf of schools.
