Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Portland School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Over the past several years, including the 2022-23 school year, Portland Public Schools has extensively strengthened our special education services and multi-tiered systems of support for students with disabilities across the district. We have fully implemented within each of our five school buildings district-developed therapeutic alternative day programs that have significantly reduced the need for special education outplacements. Through these programs, which are collaboratively staffed by district-employed educators and clinicians, we are able to keep our higher-needs students in-district with their community peers and, in doing so, offer them targeted supports and services with continued access to our tier I district curricula.

The district has a full-time applied behavior analyst who provides services to students in need and collaborates with classroom staff to continually strengthen behavior management and social emotional instruction for all students. Each of our five schools is staffed with a full time social worker, a full time school psychologist, and full complement of special education teachers and paraprofessionals based on student needs. School counselors support our middle and high school students. The district continues to make strategic use of consultative services to provide professional development and guidance to all staff on research-based best practices in behavioral science. The focus of this work has been on trauma-informed instruction and high-leverage strategies for meeting the social emotional needs of all students with emphasis on high-needs learners. The efforts described above have helped us to continually improve our comprehensive array of support services, which enable our students with disabilities to meet success within least restrictive environments across Portland Public Schools.

Portland Public schools actively monitors student attendance and strategically intervenes when patterns of absence interfere with a students' social, academic, and personal success. Such interventions occur most specifically when a student is on track to miss more than four days of school in a single calendar month or ten school days for the entire year. Throughout the district, we have strong response/support processes and protocols in place that school counselors, social workers, teachers, and administrators use to develop specific, measurable support plans that promote student attendance. To further support high levels of student attendance and engagement, each of our five buildings maintains a school climate committee that strives to create a positive school climate inclusive, inviting, and supportive of all students. The district continues to make significant strides in reducing instances of discipline, suspension, and expulsion through the use of restorative practices and a focus on building and preserving positive, healthy relationships. In 2022-23, Portland Public Schools continued work with the Connecticut School-Based Diversion Initiative (SBDI), a CSDE-sponsored, grant-funded program which seeks to advance restorative practices within school settings in order to reduce exclusionary disciplinary practices. Working with SBDI consultants and through the utilization of related grant funding, Portland Public Schools trained all secondary staff on the use of restorative practices to promote stronger relationships.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Portland Public Schools actively participates in state-wide and locally-offered programs that promote and sustain diversity, equity, and inclusion. In 2022-23, over 70 students who reside in Hartford attended Portland Public Schools via the Open Choice program. Additionally, we had many secondary students participate in courses offered by Connecticut's Virtual High School program.

Portland Public Schools maintains a teacher recruitment and retention plan that strives to employ diverse and talented staff within our schools. Minority teacher recruitment is a critical component of our plan. To support these efforts, Portland Public Schools maintains a strategic partnership with TEACH Connecticut, a platform designed to guide and inform aspiring educators towards public school employment within the state. Portland Public Schools is a featured community on the TEACH Connecticut website. Additionally, our district regularly participates in local teacher recruitment fairs, including those offered by area universities and an annual minority teacher recruitment fair hosted by the Capitol Region Education Council (CREC). Minority candidates we meet via fairs and through our strategic partnerships with organizations such as TEACH Connecticut are given priority consideration within our hiring processes. Portland is actively looking to expand our minority teacher recruitment efforts into the future and in coordination with state efforts to increase minority teacher representation in the field.

Portland Public Schools offers all students PreK-12 robust curricula that prioritizes inclusivity for all and representation of historically underrepresented groups. Social justice is a critical component of social studies and language arts coursework and related content. Students wrestle with essential questions and emerge with enduring understandings associated with our nation's and the world's ongoing struggles against forces of racism, discrimination, intolerance, and inhumanity. Through class discourse, experiential and project-based learning, and inquiry-based research, students are invited to identify challenges of inequity and injustice and to take informed action to make our community, state, nation, and world a better and more just place for all.

Equitable Allocation of Resources among District Schools

Portland Public Schools ensures the equitable allocation of resources among district schools through a collaborative budget development process that engages a wide variety of community representatives. Each school receives a baseline per pupil expenditure that ensures funds are distributed equitably. Each school and department is also provided the opportunity to advocate for funding to support school improvement initiatives. District leaders, building principals, team leaders, and curriculum specialists work collaboratively to prioritize resources and maximize the benefit of district funds. The funding priorities are then vetted by the Portland Board of Education, and ultimately are subject to community approval through the referendum process.

In addition to the regular budgeting process, supplemental funding exists through several grant programs, including the Perkins Grant, Gildersleeve Wheeler Grant, Ryan Fund, Title grants, and other opportunities. Portland utilizes all sources of grant funding at our disposal to obtain and equitably allocate resources across our schools and in service to all learners.
