Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Redding Elementary School:

During the 2022-2023 school year, Redding Elementary School (RES) used a variety of assessments to show students' measurable academic progress in reading, writing, and math. Through our SEL curricular resource, Redding Elementary School teachers provide prosocial, embedded learning experiences to support social-emotional learning within each classroom. Staff consistently communicate students' academic and social progress through Interim Progress Reports, Report Cards, and Parent & Teacher Conferences. At Redding Elementary School, parents are encouraged to support student progress through PTA meetings and presentations, parent workshops hosted by administration and staff called Parent University, the RES website, and school wide communications. RES also shares photographs and updates through the principal's Twitter account. Each year RES hosts a kindergarten meet and greet which provides information to incoming kindergarten parents about how to support developmentally appropriate school readiness. Administration also fosters communication through a weekly newsletter called, Rocky's Weekly Roundup! which keeps families informed about important dates, upcoming school wide events, RES happenings, and events throughout the Redding community. This school year RES also implemented "lunch buddies" for our kindergarten and first grade families which allowed for families to volunteer their time in the cafeteria during their child's lunch wave. RES encouraged volunteers at multiple events throughout the year including field day, grade level events, and the RES Art Show. All classroom teachers hosted a curricular celebration inviting all of their families. Redding Elementary School boasts a strong PTA that has been recognized as a National PTA School of Excellence.

John Read Middle School: During the 22-23 school year, John Read Middle School (JRMS) focused on three priority goal areas for their school improvement plan: increasing teachers' use of High Impact Instructional Strategies (HIIS), improving student learning outcomes, and improving students' and parents' responses in some areas of the annual School Climate Survey. We developed several approaches to achieve these goals involving professional development and progress monitoring. We collaborated with Helen Keller Middle school to offer an EdCamp focused on HIIS which was facilitated by both teachers and administrators. Three faculty meetings were dedicated to implementing the HIIS/Success Criteria with fidelity. Teachers were provided with professional readings and video tutorials via the weekly Staff Update. We have also conducted ongoing learning walks, from which we collected data related to HIIS and our other SIT initiatives.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Redding Elementary School: Redding Elementary School (RES) is committed to providing students with multiple opportunities to develop global, ethnic, and cultural awareness. Students have the opportunity to participate in the Garden Club, Art Club, Lego Club, Chorus, Band, Orchestra and other school programs designed to prompt community as well as and includes student independence and responsibility. The PTA sponsors many cultural programs throughout the school year including an International Festival where families share the most valuable traditions of their native countries. The International Festival is a way to celebrate the cultural diversity at RES. RES also participates annually in International Peace Day. In addition RES began a reading initiative called RES Reads to partner with families and support the home and school connection. Texts are sent home every few months and are selected to support global and cultural awareness. Each month families read the different texts with their children and are provided sentence stems to support conversations at home.

John Read Middle School: John Read Middle School is committed to providing students with multiple opportunities to develop global, ethnic, and cultural awareness. Eighth graders invite family members to attend our annual multi-cultural day. The PTA sponsors many cultural programs throughout the school year including guest speakers sharing personal stories about the Holocaust and the Rwandan genocide. John Read partnered with Jose Bou, consultant from the Great Schools Partnership. Topics included Restorative Practices, cultural awareness, and understanding the unintentional harms of exclusion. Mr. Bou presented to the staff during Professional Development days and taught students about how microaggressions can negatively impact on school culture. The principal created a "cabinet" of students to meet monthly to provide her with candid information regarding the level of acceptance in the school community. This information has been used to design and implement lessons to teach students skills that they can use to combat prejudice.

Equitable Allocation of Resources among District Schools

Allocation of resources is determined through an annual process of developing each school's operating budget in the district. Budgetary decisions are guided by the district's strategic commitment to academic excellence, character education, personalized learning and community involvement.

Teachers provide input to their principals who work collaboratively with the Director of Finance that reflects each school's mission. The budget is proposed publicly at meetings conducted by the Board of Education, where members of the public are invited to provide input. Allocation of resources is discussed at monthly Board of Education meetings. Expenditures are balanced to sustain all academic and non-academic programs and determined in a manner that ensures full participation by members of the staff and full transparency to the community.
