Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

During the 2022-2023 school year Hamden Public Schools continued to focus on previously adopted district goals aimed at improving outcomes for all students. Three of the five goals directly addressed student achievement in reading and math, while the other goals looked to improve chronic absenteeism and increase equity district-wide.

Expectations for student attendance and engagement remain high. As such, in order to support student success, social emotional learning continued to be a priority. Instructional time was designated for explicitly teaching SEL skills using the Second Step and Choose Love curricula. In addition, there was a focus on skills that are embedded in content areas.

All school staff have received training in Positive Behavioral Interventions and Supports to build positive school climates and establish tier one expectations to create environments that improve school attendance. Such training has and will continue throughout the district. The district has made efforts to reduce student chronic absenteeism and truancy by informing parents of the connection between good attendance and student success. The District Attendance Committee introduced a new attendance monitoring protocol for schools. School-based teams are expected to analyze attendance data monthly and intervene with students whose attendance rates are at or below 90%.

All students in the district are issued Chromebooks or laptops to enhance in-person instruction and at-home learning. We continued to integrate Applications into student devices in order to assist students with remote learning opportunities in the 2022-2023 school year to engage students with interactive applications.

Efforts to engage parents in the planning and improvement of the district continue to include parent information nights, orientations, parent teacher conferences, surveys and monthly Board of Education meetings held both in-person and virtually, and such surveys included, but may not be limited to: transportation and school start times, as well as child care needs. Though all events are in person, we have increased access and engagement by also allowing for video conferencing whenever possible.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Town of Hamden is a racially, ethnically and economically diverse community with approximately 5,400 students attending Hamden Public Schools. Nearly 72% of students are minority, while 42% receive free or reduced lunch. We continue to expand the skills of teachers to include strategies for working with a diverse student population, such as the importance of teacher-student relationships, engagement strategies, differentiated instruction, targeted interventions, and social and emotional learning. Teachers also received ongoing professional development on issues of race and culture including, but not limited to: Micro aggressions, privilege and unconscious bias. Impacting and eventually eliminating our achievement gap is a constant theme in our goals, initiatives and professional development.

The district is making a concerted effort to recruit minority teachers. We participate in the Connecticut Teacher Residency Program, administered by CREC fellowship to bring resident teachers to our classrooms in order to prepare them for hire as elementary classroom teachers in Hamden the following school year. In the 2022-2023 school year we had three resident teachers. In addition, Hamden became the first school district in the state to require all members of interview committees to receive anti-bias training, even ahead of the Connecticut State Department of Education mandate.

For our families where English is not the first language, we have taken steps to ensure we provide translations into other languages. The school and district web pages can be translated into more than 100 languages which has improved our ability to reach our families. We have also been providing voice translators to school offices and Planning and Placement Teams to improve verbal communication with families.

Equitable Allocation of Resources among District Schools

Distribution of resources is guided by BOE policy and students' needs. The schools receive funding based on an equitable per pupil formula as determined by the Board through the budget process. We augment District resources distributed to schools through state entitlement allocations. While the LEA budget provides a minimum level of staffing and other resources, grant funding from Title 1, Title 3, Alliance and ESSER was used to provide additional resources based on the individual needs of students in each school and program. For instance, while classroom teacher staffing is determined by a contractual student teacher ratio of 20:1 in primary grades and 25:1 in grades four through twelve, we reduce class sizes, when possible, in our most economically disadvantaged schools. In 2022-2023, the Alliance Grant, Title 1 and Title 3 grants also helped to provide five EL teachers, math and literacy specialists at the elementary and secondary levels, science specialists, and SRBI Coordinators and tutors.
