Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

As we reopened schools in 2020-2021, the district began implementation of a new SEL program Choose Love. This began with staff training, implementation of the program with students, and a family information night. We are now in our 4th year of implementation and continue to welcome other districts interested in the Choose Love program. To improve communications with families we established a district Facebook page and implemented text message features with our School Messenger program. We use this platform to both inform families and celebrate the work of our students. Our District Advancement Plan has three goals: Academic and Artistic Excellence, Wellness and Family Engagement, and District Operations. Our specific focus for Family Engagement is to implement research-based practices to engage families and the community as partners. We are excited to enhance our partnership with families over the next several years.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Hebron Public School system remains committed to reduce racial, ethnic, and economic isolation through local regional school and district programs. School partnerships with urban districts are encouraged and continue to be highly successful in bringing children from different backgrounds together. These connections foster a sense of compassion and understanding for how children from other parts of the state and world learn and grow. Our SEL program Choose Love focuses on courage, gratitude, forgiveness and compassion in action. We continue with our audit of our curriculum and instructional materials with an eye towards inclusivity and representation.

Equitable Allocation of Resources among District Schools

Gilead Hill School and Hebron Elementary School are the two elementary schools in Hebron, CT, a rural community with a population of just under 10,000. Gilead Hill School houses grades PreK - 2 and Hebron Elementary School encompasses grades 3 - 6. Since the Hebron School District is a single elementary district, with no overlap of grades in the two schools, resources are allocated equally for all students. To that end, there remains one PTA organization in the district, rather than a PTA at both schools. District committees are constructed with equitable representation from both schools for the purpose of maintaining an even proportion of resources and input required to make thoughtful decisions. The budget is prepared to support the district mission, vision, and district Theory of Action. This process ensures that the budget is allocated appropriately by school and by program. The resource allocation continually reflects the priorities and goals of the Board of Education.
