Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Improvement plans and professional development activities are aligned to the Board of Education's vision, theories of action, and strategic plan. Ledyard has committed to continuous improvement of our special education programming and the focus on developing strong connections and positive relationships. A PK-22 continuum of services has been developed and refined to effectively address the individual needs of all students with disabilities. Additionally, Ledyard has fully implemented Positive Behavioral Interventions and Supports (PBIS) district-wide.

The Ledyard Transition Academy provides instruction and vocational experiences related to post-school outcomes as recommended by the PPT process.

Ledyard continues to embrace a shared leadership philosophy. Teachers serve as PBIS coaches, grade level facilitators, Instructional Leaders, Student Services Administrators, TEAM mentors, and paper reviewers. The Professional Development and Evaluation Committee focuses on the professional standards of data and implementation and has developed protocols to support grade-level and content-area leaders with data team processes connected to Multi-Tiered Systems of Support (MTSS). Professional learning has been provided to support teachers with the implementation of the Dynamic Indicators of Basic Early Literacy Skills (DIBELS) as a universal screener in grades K-2, Foundations in grade 3, Purposeful Play in Kindergarten, iReady Diagnostic in grades 6-8 and Ready Math in grade 6. The roll-out and implementation of the MTSS Manual in Grades K-8 has also been an important part of the work.

Common assessments are administered and analyzed to shape instruction. A coordinated, district-wide elementary schedule includes refinement of an intervention/enrichment period WINN Block in grades K-5. Student progress is assessed via the Measures of Academic Progress (MAP) K-8, Smarter Balanced Interim Assessment Blocks (IABs), and PSAT. Curriculum revisions in social studies and science align to the CT Framework and NGSS. This provides a comprehensive academic and enrichment program embedding opportunities to develop 21st Century Skills.

Ledyard Public Schools is a 1:1 device district 6-12 (take home); all K-5 students are 1:1 in school. G Suite is utilized to support this 1:1 effort and the use of Google Classroom and Google Meet assists in communication with students and parents.

Ledyard provides regular and timely information to parents regarding their child's academic performance and school engagement. In grades 6-12, parents can access student grades on the web as they are posted by the teachers in PowerSchool. In grades K-2, parents can access student work and teacher feedback on the SeeSaw platform, while parents of students in grades 3-6 can access information using Google Classroom. An automated phone/email system is used to communicate various school/student issues, including absenteeism and truancy. Parent/teacher conferences are scheduled twice a year. The Board of Education continues to seek avenues to partner with parents.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Ledyard Public Schools is dedicated in its efforts to reduce racial, ethnic, and economic isolation through its curricula and extra-curricular programming. Annually, each School Climate Team updates its plan of action based on data analysis from school climate surveys. Work to provide frequent and varied communication with stakeholders and strategies to include peers in play and social groups is ongoing. In-school and out-of-school experiences in science, history, music, visual arts, and performing arts are supported at the elementary and middle school levels with collaboration from parent organizations. Our high school music, fine arts, and drama programs routinely celebrate diversity through multicultural expression. Ledyard, Robert E. Fitch, and New London High Schools conduct a youth leadership program entitled, "More Than Words." Students trained as youth leaders educate their peers to better understand diversity and to provide positive communication strategies for students. High school students bring these skills to our elementary classrooms. District and building administrators are working to build increased collaboration with Mashantucket Pequot tribal leaders to improve student achievement. As the second-largest military-connected student population in Connecticut, LPS coordinates with the School Liaison Officer for Naval Submarine Base New London to support military-connected students. Each school in Ledyard has a Military Family Life Counselor provided by DOD. Ledyard students participate in a number of charter, magnet, and tech schools in Southeastern Connecticut; 134 students in grades K through 12 are enrolled in 14 choice programs in Groton, New London, Norwich, and Waterford.

Following the development and adoption of a district Equity Statement, a Diversity, Equity, and Inclusion subcommittee was developed. The work has been focused on creating a multi-phase plan to enhance the awareness and deconstruction of systemic barriers to equitable access to learning in our schools.

Ledyard Public Schools is committed to recruiting a diverse team of talented professionals, teachers, administrators, and staff who share similar backgrounds and experiences with our students. A three-year plan was developed to enhance hiring practices.

Equitable Allocation of Resources among District Schools

It is the policy of Ledyard Public Schools that each school receives an equitable allocation of resources within the district's financial parameters. The administrative team works to develop a budget reflective of the vision and goals of the Board of Education. In developing the budget, primary consideration is given to student needs but also factors in enrollment, curriculum initiatives, special education, contractual obligations, and mandates. In this process, principals meet with staff to identify department and grade-level needs. Budgets for instruction, personnel, technology, special education, and maintenance are developed by directors and principals. District and school budget requests are reviewed, prioritized, and aggregated to form the Superintendent's budget which is presented to the Board of Education. The Board hosts forums to gather input and ensure public understanding of the varied financial needs of the district. The feedback received at the forums is considered by the Board prior to the submission of their budget to the Town Council. This sequential budget review ensures per-pupil expenditures at each school are reviewed and adjusted to confirm equity.
