Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Amity Regional School District No.5 school improvement plans put a primary focus on students' social and emotional health. Professional Learning (PL) sessions focused on resilience, mental wellness, and transformative social emotional learning and were provided throughout the year to staff by a consultant from Connecticut Behavioral Health. With support from the CSDE, the District offered targeted professional learning on writing high-quality goals and objectives for students in special education. All special education staff also engaged in training focused on best practices for reading intervention. Additionally, staff attended National Conferences on implementing evidenced based social and emotional supports across the tiers of intervention. In an effort to address truancy and chronic absenteeism, a district-wide committee was created to develop a multi-tiered set of strategies to address these issues. A significant component of the committee's plan emphasized increasing family and community awareness as student absences occur.

Students who are supported socially and emotionally are available for learning, and Amity's other district improvement focus was on high academic expectations. The STAR Assessment was administered to all students in grades 7-8 and the data was analyzed by teachers to adjust the pace and content of whole class instruction, as well as to provide targeting interventions for individual students. All Ninth, Tenth, and Eleventh-grade students participated in the PSAT and all Tenth-grade students were given the PreACT test during the administration of the school-day SAT. The District MTSS Committee met to clarify the process of identifying tiers of intervention and support. Both district and school-based data teams were created this year to review state and district-wide assessment data in order to identify strengths and opportunities for improvement related to teaching and learning in the district. Academic focus on reading continues to be high priority with the second year of implementation of the Readers' Workshop model for grades 7 & 8 English. The District also offered students multiple opportunities to apply their learning in real word context through the Science Research Program, the Senior Service Learning Projects, and Senior Interest Projects this spring.

The District continued it's commitment to ensuring the extension of student learning from school into the home. The entire Amity District worked diligently to ensure that parents received ongoing communications throughout the year. Principals sent weekly newsletters and grade-level Google Classrooms were in place to share information with high school students. Parents of students with special needs were invited to participate in Parent and Placement Team meetings, 504 meetings, or Student Study Team meetings. PowerSchool allowed parents and students easy access to attendance, schedules, and academic records. Google Classroom was used as a learning management tool to support students who are unable to attend school, while the District also piloted the use of Schoology in targeted classrooms this year and will expand its use for the 2023-24 school year. Each school has an active Parent Teacher Student Organization and the Board of Education has added a district-wide newsletter to the various communications that were sent out to the District.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Amity District engages in numerous initiatives designed to reduce ethnic, economic, and racial isolation. The District fully supports the Open Choice Program with 37 students participating in 2022-23 school year. Amity staff continued commitment to efforts around Diversity, Equity, and Inclusion. During the 2022-2023 school year the District created a diversity, equity, and inclusion support position. This coach worked with 31 teachers and administrators supporting their work to increase inclusion and belonging among the students and staff. The DEI coach coordinated groups of teachers and administrators to attend professional learning days at the RESC Alliance Igniting Change Conferences and Pathway series. The Amity District had over 16 teachers and administrators attended the two one-day conferences and 8 participated in the Pathway Series, ranging from grading reform to inclusive school culture to equity-centered leadership. The District has also established three guiding principles with goals and yearly actions steps that were introduced to all teachers. The guiding principles focus on safety and belonging, inclusive curriculum, and cultivating relationships. Aligned with professional learning on diverse populations and with guidance from the local RESC, the social studies, English, career and technical education, and physical education departments engaged in curriculum review using an equity audit tool. Application of the tool and revision of curriculum will continue into the following years and other departments and content areas will be added to the audit cycle. For the second year in a row, each school received recognition from the Anti-Defamation League (ADL) with a "No Place for Hate" designation. This student-lead school climate program allows activities to be tailored to the needs of the school. Middle school students designed whole-school activities to raise awareness about issues of diversity and fairness. Both middle schools and Amity Regional High School sponsor a variety of student led clubs and extracurricular activities designed to reduce racial, ethnic, and economic isolation. Through the district's second year of partnership with UCONN, a comprehensive school climate survey was administered to students and staff this spring.

Equitable Allocation of Resources among District Schools

The Amity Board of Education is committed to ensuring the entire district receives comparable resources through a fiscally responsible budgeting process. Annually, building principals, department leaders, and central office administrators collaborate to develop a budget that reflects needs and priorities of the district. Issues such as enrollment, improved student performance, curriculum revision, health and safety, student interest, special education, and capital improvements drive the budget. The administrative team works closely to prioritize requests in alignment with district and school goals. The Superintendent develops a proposed budget that is presented to the Amity Finance Committee (AFC). The AFC consists of members from the three communities served by the Amity District. The members review the Superintendent's request and suggest adjustments. The Superintendent and administrative team review the suggested adjustments and reallocate resources in an equitable manner. The Superintendent presents the proposed budget to the full Board for approval. A Public Hearing is held prior to Board adoption and the budget is approved in each town via a Referendum Process.
