Notes

Unless otherwise noted, all data are for 2022-23 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

A targeted extended school year program was offered to students with disabilities in the areas of reading, math, and writing last summer and an enrichment program is additionally planned for this summer. The targeted program consisted of three one-week sessions where a small, identified number of students received instruction provided by a special education teacher and a paraprofessional. Students with IEP needs in the area of speech also received services through the extended school program. All services and both programs were provided at no cost to the families. During the school year, we expanded our SRBI services to students. In the area of parental engagement, we made great strides throughout the majority of the school year. Parents are encouraged to utilize the school's website and the school app for cell phones and ClassDojo to stay informed of school events and opportunities. Teachers maintain active individual classroom webpages that include daily homework assignments. Teachers also use Power School to post student grades in their electronic grade books. Parents are provided private passwords to see their students' academic information in real-time. Scotland Elementary School strives to engage parents in the education of their children and involves families in a variety of academic and social activities. As many of these events are held during the day as possible, as well as evening activities. We were able to still host an Back to School Open House, Parent-Teacher Conferences" afternoon and evening, an December Holiday and end-of-the-year music concert, and graduation ceremonies for both kindergarten and sixth grade. Lastly, with the help of parent support, SES created an initial PTO that will continue to grow in the coming school year.

Truancy is not generally a problem at Scotland Elementary School but procedures are in place to deal with such issues if they arise. We have a Student Assistance Team consisting of the building principal, the school nurse, and the school counselor who meet regularly to discuss student issues. Any staff member with a student-specific concern may refer a student to the Student Assistance Team. During this past year, we did see a spike in attendance outliers due to medical factors, however, we increased our partnership with families to address the needs that arose as a result of this and engaged families more in the traditional SAT process.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Scotland Elementary School reaches out to members of Scotland and surrounding communities to present in-school field trips whenever possible. Scotland Elementary School participates in the CT State Department of Education Interdistrict Grants that partners Scotland students with other districts like Hartford and Middletown (urban) cities with our rural school district. We still partnered this past year with Eastford and area communities for Meet the Authors, book club, and other programs. Scotland has a strong relationship with our local STEM school students and have plans to increase activities. We partnered with Andover to share an American Sign Language program and a Therapy Dog and will hope to have more in-person activities for our families and students in the upcoming year.

All children enrolled at Scotland Elementary School received breakfast and lunch provided by the EASTCONN food service program at no charge regardless of economic status during the past school year.

Equitable Allocation of Resources among District Schools

Scotland School District consists of only one school, Scotland Elementary School. All district resources are allocated to Scotland Elementary School to ensure that student needs are addressed by background, class, grade, and academic need.
