Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Graduation Rate Gap	94.0%	94.5%	-0.5%	9.8%	N

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

The Student Services Department continually strives to improve parent communication and engagement. We review, revise, and improve documents that are shared with families at PPT, 504, and other meetings to ensure that family members are well apprised of their rights and our services in a way that is easy for them to understand.

We have improved our student attendance rate over time. For both the general student population and among students designated as "high need," we continue to have the best attendance rate among all similar districts.

Schools are continually engaged in helping staff members better understand effective methods of communication and engagement. Staff continually seek to engage parents and how to support student learning at home and how to support student learning at home and this is supported curricular through the district's Envision 2.0 mathematics series which has substantial at-home support tools.

Efforts to Reduce Racial, Ethnic and Economic Isolation

We participate in Hartford and Waterbury magnet schools, sending approximately 150 students each year. Our participation in the CAPTivating Kinds initiative is purposefully designed to connect students with those from other cultures and demographics. We have also been working with People Investing In People, this program is designed to have high school students help students in Africa learn Technology, through video chat. Elementary students are also working with students in Ghana, in which they are also video chatting and teaching students there about technology. Through our own curricular efforts and also through programming with our parent groups, students gain access to a wide variety of cultural programming and events.

Schools hold "town hall" meetings, community outreach events, Model UN, and presentations by the ACLU and other such groups aim to bring a wide variety of cultural perspectives to students of Wolcott.

We are actively researching and pursuing greater variety and representation in instructional materials such as classroom reading libraries.

Equitable Allocation of Resources among District Schools

As an example, in recent data, one of our three elementary schools was clearly performing better on standardized tests. So, when an additional part-time staff member was approved during the budget process for math intervention, the person's time was equitably divided between the schools with lower performance. All schools have access to math interventionists, but those schools whose data shows more need to get more personnel to support this effort. This decision is revised yearly to send the staff to support the students most in need. We also added a TESOL teacher. This teacher's time is primarily dedicated to the one school with the highest number of EL students while also providing part-time support at other schools.
