Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

East Granby Public Schools (EGPS) engaged the community in the development of a District Improvement Plan that responds to identified student need, school vision, mission, and goals. EGPS employs a continuous improvement cycle using student data to guide decision-making. Across the district, EGPS utilized standardized assessment, such as Fountas and Pinnell, Measurement of Academic Progress (MAP), and PSATs, to identify student deficiencies in reading comprehension of complex texts. For mathematics, results were garnered from ALEKS, MAPs, PSATs, and departmental assessments to gauge students' levels of mastery. Through the SRBI process, schools were able to determine which students needed additional support and pinpoint areas for growth. Instruction was designed, implemented and reviewed to ensure all students achieved success. Our school counseling team worked closely with administrators, teachers, and families to help students who struggled and provided dedicated support according to the students' needs. Teachers and staff participated in professional development and PLC teams across the district to further enhance their instructional strategies. Curriculum was reviewed and revised regularly to improve student outcomes. Our attendance protocol included supports to ensure regular attendance and participation of students. Student Support Services focused on reducing the achievement gap of our most challenged learners by training additional staff in specialized reading strategies and extensive professional development (PD) to improve programming and outcomes for students. Collaborative models were established with general education teachers to support students within an inclusive and co-teaching environment. The district's collaborative model included PD opportunities for teachers and paraprofessionals that focus on reading strategies, assistive technology, autism, and workshops to empower parents. Technology was emphasized as an essential strategy for enhancing the curriculum, student engagement, and individualized learning during COVID19. Several years ago, EGPS launched a revision of the Mission and Vision Statements by seeking input from stakeholders, which included administrators, faculty, students, parents/guardians, community members, business partners, and the Board of Education. In addition, the district designed numerous pathways of success for our students.

East Granby High School's Portrait of a Graduate embraces the five important components which include: critical thinker, creator, communicator, collaborator, empowered citizen. The district continues the work to identify outcomes of the five "C's" at each district schools. School Staff provided parents with suggestions to support their child at home. Various information was disseminated using our website, social media, parental advisory meetings, surveys, virtual parent classrooms, listserv emails, newsletters, blogs, the Town's newsletter, orientations, parent conferences, School Messenger, and including parents and guardians on committees were also practiced. PowerSchool was implemented allowing parents to have access to student grades and attendance data. Additionally, parents were invited to virtually attend school events such as the Art Show, Family Math Night, Open Houses, Meet and Greets, Field Day, concerts, plays, Poetry Café, and Invention Convention.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The district is committed to the belief that equity, diversity and the social and emotional well-being of our students is paramount to their success. We began the process to develop a continuous improvement plan designed to enhance climate and culture, including social emotional learning, equity, diversity, anti-bias and social justice. With these goals in mind, we established a Climate and Culture Advisory Team who initiated the district's Climate and Culture Plan. The plan included three critical components: teaching and learning, community engagement, and student centered opportunities for growth. Teachers participated in professional learning on culturally sensitive teaching and Mastery Based Education. Advisory group sessions provided students with opportunities to interact and focused on social emotional learning and use of mindfulness and self-resiliency curriculums. We participated in the Open Choice Program and the Choice Social and Academic Support Grant which helped us provide afterschool enrichment clubs that are open to all students. The elementary schools offers Student Activity Council, Math Fact Fluency Club, Invention Convention, and Morning Athletic Club. Secondary level students participate in NCCC athletics, debates, music festivals and academic competitions like the Academic Bowl, Math League and As Schools Match Wits. Global and local community interaction included participating in CREC's Greater Hartford Academy of the Performing Arts program, Asnuntuck Community College's Partnership Program, and partnering with CREC for racial equality planning. World Language classes exposed students to music, food, and art and culture from around the world. Our ELL teacher worked with ELL students to develop their English skills and provide academic support. We celebrated heritage months and our music program explored multi-national genres. Students held fundraising events in conjunction with our local food pantry and national organizations to address poverty and hunger. In conclusion, our 98 teachers were dedicated to educating our 846 students on the diversity of individuals and culture by highlighting their ethnically and racially diverse society through daily lessons, activities, and community projects.

Equitable Allocation of Resources among District Schools

We ensured equitable allocation of resources by engaging stakeholders in the budget development process at the school and program level. School priorities and instructional resources were identified and incorporated into each school's budget plan. The district's operating budget supported the educational program. Grant funding supported initiatives and programs to increase student, school, and district performance and allowed us to offer after school activities. Technology funding continued to enhance transformational learning for all students. Our one to one technology initiative connected each student with a Chromebook or iPad for usage. The town of East Granby provided capital infrastructure funds to support acquisition of technology and school safety, maintenance, and enhancements in all schools. The PTO supported our students and programs with funds. Educators carefully and purposefully planned and allocated money to ensure that all students received equal educational opportunities by insisting on deep rigor in all classes, provided layered interventions for all students, and ensured that all students had access to 21st century learning opportunities.
