Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

East Hampton School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Each school in East Hampton has fully implemented the district's Profile of the Graduate into curriculum and practices, making the Profile a strong tool for district coherence. District and Building Goals speak to the transferable skills of the Profile and the importance of ensuring that all students have the opportunities throughout their school career to practice and master these skills. The Profile of the Graduate itself is a matrix of developmental transferable skills that are measured by authentic performance assessments throughout students' PK -12 experiences. The Profile is based on the district's vision, East Hampton 2030, which was updated in March 2020 in a process that included surveys and focus groups of students, teachers, parents, and community members. The vision includes critical student outcomes focused on high academic standards, the acquisition of 21st Century skills, and character development. The East Hampton Board of Education annually develops an ambitious set of district goals for the improvement of its instructional programs and operations based on the vision and has since expanded the goals to include the implementation of the Profile of the Graduate. Each of the school's building goals are based on the district goals and are communicated to parents in presentations at Board meetings and the monthly Superintendent's Advisory Council meetings. The administrative team regularly presents "The State of the Schools," based on the vision and the Profile of the Graduate that is a multi-media and interactive evening open to parents and community members. District initiatives and communication on the schools' progress are widely distributed through regular newsletters from each school, the school's newly updated website, and social media pages maintained by each school. Information is shared and discussed with parents and the community at the monthly Superintendent's Advisory Council meetings. Communicating with parents and the community is one of the highest priorities of the school district and the Superintendent of Schools prepares a weekly update that is forwarded to the entire school community. Each school has an active parents' organization and active booster groups have provided funding during budget shortfalls for extracurricular programming. The Superintendent of Schools has regular "Coffee and Chat" mornings for informal visits by parents and community members. The Superintendent annually leads a book discussion for parents that includes morning and evening sessions. Past book titles have include, Mindset, Grit, Second Nature, and Thrivers. The Director of Curriculum is key in instructional progress, coordinating all improvement efforts among the district's four schools ensuring coherence and fidelity among all schools. In an effort to partner directly with families, the schools focus on unified week long initiatives focused on character and other traits including the Sandy Hook Promise. Weekly building newsletters and regular classroom communications directly from Principals and teachers through ParentSquare are designed to support families in providing support and/or additional educational activities to enhance all school programs. Educational articles and commentary on growth mindset, grit, mental health, mindfulness, child development, are sent weekly to every parent and all staff.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Students participate in various regional, state, and national activities designed to connect students of all cultures and interests in music, drama, student council, and athletics. Tremendous efforts are made to connect students at every grade level with educational opportunities within the state and out of state. The world language department annually sponsors trips to New York City for food tours of various cultures and weeklong trips abroad that expose students to various European and South American cities and cultures. The music department participates in state festivals, New England festivals, and national festivals that provide students a rich opportunity to meet and work with students from diverse populations. The high school welcomes international exchange students each year. There is a long-standing tradition that the Senior Class tours Washington, DC. Teachers are sensitive and aware of the importance of using daily curriculum to promote broadening understandings and the increased use of technology to present students with a global view. Clubs and activities at the high school including the Interact Club, EarlyAct Club (middle school), the Senior Capstone Project, the grade 8 Capstone, and regular community service opportunities are designed to connect students to programs, internships, and service outside of the community. In addition, the school district has established a relationship with the Shandong Provincial Education Department in the Jinan Province of China and each school in the district has hosted several school leaders and teachers from China who have visited classrooms and interviewed students. In the summer of 2018, forty students, teachers, parents, and community members traveled to China. During that visit, East Hampton High School established a sister school relationship with the Jianhua School in Beijing. In the fall of 2019, twenty students from the Jianhua School visited the United States and spent six weeks with families and attended classes at East Hampton High School. While the pandemic has impacted the annual exchange, the Jianhua School is hoping to visit East Hampton during the 22-23 school year. Our High School along with community members will hopefully travel to Beijing again in 2024 to visit the Jinhua School.

Equitable Allocation of Resources among District Schools

The budget development and management process in the East Hampton Public Schools helps to ensure that there is an equitable allocation of resources among district schools. The school district has been highlight successful incorporating 1-to-1 technology at the Middle School and High School, and recently completed a two-year effort to ensure 1-to1 technology on carts available to all students in Grades PK-5. During the pandemic, the schools' PTO groups in grades K-5 provided cases so students in those grades would have access to technology at both school and home. Additional annual staffing budget proposals are developed by administration and approved by the Superintendent of Schools. They include adjustments based on enrollments or special needs. The Board of Education welcomes budgeting suggestions from staff, parents, and the community at fall meetings, public hearings, and informal meetings such as the monthly Superintendent's Advisory Council. Parents are extremely active in the budgeting process and have provided tremendous advocacy for the budget throughout the referendum process. With four schools, equitable distribution of our limited resources is a high priority.
