Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

East Haven School District

Narratives

School District Improvement Plans and Parental Outreach Activities

East Haven is focused on improving performance in a welcoming community. This includes implementing an engaging curriculum aligned with our recently adopted Vision of the Graduate. To improve our instructional programs, we review student learning and social skills through teacher-centered curriculum and data teams. In grades K-12 the district continues to enhance interdisciplinary connections in the curriculum, including the addition of Sheltered instruction courses for English Learners. Family focus groups help improve two-way communication, and we host a quarterly curriculum advisory council that allows students, families, and teachers a forum to discuss instructional programming. We focus to improve academic and behavioral outcomes through our multi-tiered system of support and interventions. This year our focus was on improving access for all learning and embedding instructional supports. This year, families also had an opportunity to participate in Circle of Security, and People Empowering People programming.

Early intervention teams work with our Attendance Officer to reduce chronic absenteeism, increase student engagement, and support families so our students come to school ready to learn. This proactive and preventative approach to monitoring attendance helps to provide schools and families with support through tiered interventions. Training for Parent/ Teacher Home Visits was available for teachers to support engagement.

The District's Pupil Services Department continues to improve special education services for students with disabilities in the least restrictive environment. East Haven has expanded the number of classrooms for students with autism.

Our special education teachers serve as a resource for general education, creating space for special education and regular education teachers to collaborate on ensuring the success of all students. Throughout the 2021-2022 school year, building and district Family and Community Engagement (FACE) Teams composed of parents/guardians, school staff, community partners and student representatives (middle and high school) were convened to provide ongoing dialogue between all stakeholders. Using the National Network Partnership Schools Model, team members are trained on Connecticut's Full Equal and Equitable Partnerships with Families framework.

Our public curriculum site is accessible and allows parents to review content, and provides suggestions on learning at home. Schools send home frequent updates using the District's messaging system announcing evening activities such as literacy nights, math game nights, college fairs and other important opportunities for parents to learn how they can support and work with their children at home.

This year, virtual offerings allowed us to flexibly serve the needs of our community while maintaining safe distances. Information is sent using voice, e-mail, Facebook, and texting to further increase communication with families and the community at large. District events and activities are posted with real-time pictures and captions that demonstrate the importance and power of partnering with parents. All this information is then linked to our District's website and East Haven that parents can download on their phone.

Efforts to Reduce Racial, Ethnic and Economic Isolation

East Haven Public Schools has long promoted an environment that fosters respect for diversity with the goal that all students feel accepted, connected, and valued. We embrace our diversity in meaningful ways that enhance the educational experience for all our students. Several ongoing programs support ongoing dialogue around diversity and tolerance. The district has expanded efforts to promote the use of restorative practices to ensure equity of voice within the school community. East Haven participates in the Open Choice Program. Through this program, students from urban communities enter our schools in kindergarten and are eligible to remain through grade twelve. East Haven is also partnering with our local RESC in a "Grow Your Own" minority recruitment initiative for identified minority paraprofessionals who are interested in becoming certified teachers. Events like a virtual minority recruitment fair support the recruitment of effective talent. Course offerings in both ELA and Social Studies at the high school are designed to provide students with opportunities to reflect on historical events from multiple perspectives, with a focus on identity and equity. Our elementary school social studies curriculum includes opportunities to analyze aspects of culture and examine the legacies of various immigrant groups who have made the United States home. We actively seek grant opportunities to create space to learn more about the endurance and strength of various communities, such as a recently awarded grant from TeachRock to support our Black and Latino studies class and integrate multicultural opportunities in the 6-12 Humanities and Music program. East Haven has a robust Unified Sports program that celebrates the athletic capabilities of students with diverse abilities. Our curriculum revision process includes the review of curricular materials for bias and the inclusion of materials that are representative of our student population, with inclusive practices embedded.

Equitable Allocation of Resources among District Schools

The East Haven Board of Education allocates resources in a manner that ensures equity for all students while maintaining a system that is responsive to the unique needs of each school and each student. The budget development process is inclusive and allows all members of East Haven's educational community to contribute and provide input. District priorities, such as staffing and curriculum revision, are budgeted to ensure that students in all grade levels are offered a comparable educational experience. For example, staffing decisions are driven by the goal of equalizing class size at all grade levels across the district. Expenditures continue to support District curriculum initiatives that benefit all students in every school. In addition to District-funded activities, dollars are allocated on a per capita basis, so building principals have the flexibility to address the school improvement activities and the individualized educational needs within their schools.
