Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Annual school district improvement plans remain aligned to both the Long-Range Plan and the District Improvement Plan. The focus of these plans are around three goals: Focusing Decisions and System Operations on Student Success, Collaborative Culture, and Student-Centered Learning. All improvement plans focus on the following theories of action.

District Improvement Plan Theory of Action

If we build shared meaning, capacity, and commitment to action then all stakeholders will see their part in achieving the mission of the school district.

If a growth mindset underlies our culture, then we will foster learning, innovation and action through trusting partnerships.

If we focus on instruction that considers the distinct learning needs, interests, aspirations, and cultural backgrounds of our individual students, then all students will achieve both inter-personal and intra-personal growth.

Infinite Campus remains the district student management system. This system allows parents to access attendance and grades for every student in the district. Students have access to their own accounts as well at the secondary level in order to develop their own awareness of their personal growth over time. Parents are notified daily and weekly regarding achievement and attendance records. Every building hosts conference opportunities twice throughout the school year. The district continues to use our school website as a means of communicating to parent's programs and online resources to help guide their student's skills-based development at home. Online learning hubs such as Seesaw and Google Classroom provide equitable access to learning materials for all students as well as ensure consistent communication between students, educators, and families during the learning experience.

All elementary schools have active PTAs that assist in building community support for education and student needs. We have returned to welcoming parents back to school for in-person events this spring as a result of lifted covid restrictions. Parent, school counselor and support staff relationships continue to be a priority to ensure a safe and nurturing environment for all students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The school district continues to make available the opportunity for students to attend regional magnet schools.

The district strives to enhance students' understanding of the larger world. Awareness, celebration, and appreciation of significant events in world history and an understanding of characteristics of and interactions among different cultures are addressed through a number of venues. Throughout the grades, literature in language arts, social studies, music and art addresses diversity and cultures around the world. Use of digital streaming platform allows several classrooms to engage with students and professionals from outside the town, state and even country. The Anti-Defamation League continues to be a partner and resource for our schools. Student clubs focused on diverse student interest are key components of our educational program at all buildings. All field experiences provided to children are meant to focus on cultural and individual diversity across all buildings.

East Lyme School District has most recently partnered with the Equity Institute to conduct a Root Cause Equity Mini Analysis in service of understanding perceptions and beliefs about educational equity. In addition, The East Lyme Board of Education has developed a Diversity, Equity, and Inclusion strategic plan to help counter racism, advance diversity, promote equity and foster inclusion throughout the district.

East Lyme School District

Equitable Allocation of Resources among District Schools

The Board of Education policy assures that each school in the district receives an equitable level of materials and financial resources. "Zero based" budgeting is practiced as a means of ensuring a student need based budgetary process so that each student receives the necessary materials, supplies and texts. Additionally, East Lyme is a 1:1 device district to ensure equitable access to materials at all times. The district supports several educational programs across all five schools; in order to ensure a common experience for all students which help to provide an equitable experience across all K-12 classrooms. Instructional supplies and professional learning resources are aligned to the curriculum revision cycle as a means of providing equity across content areas. Throughout the year, there is a consistent focus on identifying districtwide programs and resources that can consistently support our students across all buildings to allow us to provide a more coherent educational experience. Core/Tier one instruction is seen as equal opportunity and access for all students in using the Universal Design for Learning principles.
