Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Indicator		Index/Rate	Target	Points Earned	Max Points	% Points Earned	State Average Index/Rate

Graduation Rate Gap	.	.	.	.	

¹If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

²If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served. Gap calculations are based on unrounded rates.

Narratives

School District Improvement Plans and Parental Outreach Activities

In Eastford, we continue to collaborate with support from EastConn, our regional center, on the development of a more personalized approach to learning. We successfully completed the first year of our Strategic Plan which included outcomes in the areas of English Language Arts, Math and Social Emotional Learning.

Our teachers and administrators continued to use data from in-house assessments and observations to inform instruction and implement personalized success plans to improve student achievement. All students participate in assessments that are analyzed for both group and individual performance on specific skills. The data collected are used to inform instruction and provide appropriate interventions for students requiring enrichment or reinforcement. The Common Core Standards-Based Report Cards and data are maintained electronically and follow students from grade to grade to facilitate curricular articulation. The Eastford Elementary School developed an MTSS team (Multiple Tiered System of Support) The team analyzes data and assists teachers in developing action plans, monitoring the progress of students and communicating performance with parents. Parents are invited to examine student data at parent conference times or upon request. Special education teachers and general education teachers collaborate at MTSS meetings to ensure that action plans for regular and special education students are skill-specific and carried out with optimal fidelity and efficiency. In the area of special education, Eastford has focused on increasing the inclusion of all students with disabilities in the regular classroom. The special education teachers are experts at inclusion, and they co-teach at many grade levels. Eastford Elementary has few attendance and truancy issues.

The Eastford District is fortunate to have four parent groups, the Eastford PTO, the Middle School Fundraising Group, the Sports Boosters, and the Readiness Council. All stakeholders regularly help the school function as a collaborative, inclusive and resourceful educational community. With the lifting of restrictions due to the pandemic, our PTO and the Middle School Fundraising Group were able to be more active this year. We hope that with the return of sports next year, our Sports Boosters will become involved once again. The Readiness Council continued its efforts to support the preschool program and attempts to include all parents who have pre-kindergarten children in outreach communications.

The school issues a monthly newsletter to inform families about academic and extra-curricular activities. Town wide events are also published in this newsletter. The school's website is being used as a primary home-to-school communication tool. All teachers post instructional information on the website. Postings in grades 2-8 include homework assignments.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Eastford School District is a one-school district; the Eastford Elementary School houses grades PK-8 and most high school students attend Woodstock Academy. Eastford has little racial or cultural diversity, yet staff members continue to look for ways to support efforts to reduce racial, ethnic and economic isolation. The curriculum is aligned with discipline-based standards as well as Connecticut's Common Core of Learning. Up-to-date curricular goals and materials provide a powerful vehicle for multicultural education and allow for the seamless inclusion of current events and topics that incorporate real-time examples that support the curriculum. Recent purchases of teaching materials that reflect the diversity of the communities surrounding Eastford further enhance our programming. We continue to increase the resources of the Media Center. Book collections and multimedia programs are growing in volume and in diversity. Mobile computer labs have become extensions of the Media Center, through which our students have been able to collaborate with students throughout the United States and overseas.

With the lifting of COVID restrictions, our students were able to begin to participate in offsite, in-person experiences or have live interaction with on-site guest speakers that emphasized the importance of becoming active, constructive members of a larger community. Our staff also utilized technology applications and resources to provide students with opportunities to participate in virtual field trips and interact with academic experts located throughout the world. Our students participated in virtual and on-site programs such as learning about the Amistad with Mystic Seaport. We participated in regional programs offered through EASTCONN that fostered communication and relationships between Eastford and other more diverse communities.
