Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

District	95.6	1,027	67.6
State	95.0		43.5

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

School District Improvement Plans and Parental Outreach Activities

WHIPS leverages its District Development Plan to support multi-year efforts toward systemic improvement. Strategic efforts are grounded in collaboration, core standards, best instructional practices; data teams, the SRBI process, and support for professional learning. Recent areas of focus include family engagement initiatives, culturally relevant and student-centered instructional practice, social emotional learning and social justice education, and expansion and improvements to our special education programming.

The Family Engagement arm of the Office of Equity Advancement has expanded its reach and partnership with families to maintain structures that engage and support families and our school community under our Vision for Equity. District and school teams have coordinated efforts for grants for student engagement and community partnerships, panel discussions on social justice in collaboration with university partners, and parent partnership activities related to family outreach, communications, curriculum review, professional learning and other forms of community engagement. Activities and approaches are also coordinated through the One Community network of parents/caregivers, educators, and community organizations.

The Office of Equity Advancement partners with several parent-led community organizations which have influenced practices related to diversity in curricula, enrichment programming, policy, BIPOC student parent engagement and more. The One Community for Equity network of parents/caregivers, educators, and community agencies coupled with parent equity work and focus groups have provided rich opportunities for collaboration and shared learning about issues of equity, race, racism, inclusion and other social justice topics. Our diverse speaker workshops featured presentations with break-out discussions. An Equity Advancement newsletter offers approaches and resources for talking to children about racism, social wellness and healing, racial and gender identity.

The District maintains a focus on the effective integration between general and special education. District leadership monitors delivery of educational services and inclusion practices. Recent changes to programming include: the addition of a district supported community bookstore as an additional vocational training location for our Post-Secondary Transition students; enhancements to alternative programs (STRIVE and School Engagement) to increase active engagement and social and emotional well-being; training for clinicians in SEL interventions; and the inclusion of school counselors at the elementary level to support student regulation.

District structures enable a through line for strategic efforts from the district to the classroom. Building leaders design improvement plans based on their school's performance relative to student metrics (graduation rates, AP results, literacy, math, and science state assessments, DRA, LAS Links, etc.) and teacher performance. Classroom teachers receive reports on the achievement of their students. Teachers meet weekly during dedicated professional development time to review results and extend data analysis to the classroom level. Our early release Wednesday model provides dedicated professional learning time to support district, school, and grade-level initiatives as well as individual professional learning goals.

Efforts to Reduce Racial, Ethnic and Economic Isolation

As a diverse community, West Hartford is one of the few towns in the state whose percent of minority students and students eligible for free and reduced lunch both closely resemble the state average. During our 182-day school year, there are innumerable opportunities within a student's normal instructional settings for interactions between students of different races, ethnicity, and socio-economic groups.

Beyond the day-to-day activities available to all students, the district has strong participation in a variety of programs that promote reduced racial, ethnic, and economic isolation. Approximately 330 students attend inter-district magnet, charter, and vo-tech schools. West Hartford has two magnet elementary schools with a total enrollment of 831 students and a magnet enrollment of 36 students. Our district has actively recruited minority staff members and participated in CREC Minority Job Fairs, UCONN Job Fairs as well as hosting our own career fair. We have begun our own Future Educators of Diversity Program. We have also recently entered the CREC CT Teacher Residency Program to train and support diverse candidates. We are an active participant in the Open Choice program with 210 Choice students enrolled.

The district has established an Office of Equity Advancement that reports directly to the Superintendent and partners with the Office of Curriculum and Instruction to support educational initiatives to reduce racial, ethnic and economic isolation. The district sponsors grant and town funded positions serving as outreach coordinators to support families of English learners and liaisons to town services.

The school board has taken an active role in supporting programs, providing resources and has recently passed a policy statement on educational equity. The Board continues to support magnet schools, HANOC, The Bridge Family Center, Graustein Memorial Fund Discovery Project, Summer Academy, Hello! West Hartford, West Hartford Celebration of Dr. Martin Luther King, an LGBTQ+ Alliance, Equity and Diversity Council, community conversations regarding diversity, the elimination of school mascots, training in Culturally Responsive Pedagogy and Trauma Informed Practice, Summer Connections and ESOL Summer Programs, and the Alternative High School programs.

Equitable Allocation of Resources among District Schools

During the budgeting process, we carefully evaluate the needs of each school and program. Funding decisions are based on key criteria, some of which are uniform, while others are based on special needs at the building level.

Staffing Levels: Student-teacher ratios are established at the district level. Staff are allocated based on the enrollment and, at the high school, the number of students taking a particular course. There are reduced student-teacher ratios at two of our elementary schools based on the educational needs of those students.

Instructional Supplies: Many textbooks and supplies are purchased centrally. In addition, each building receives a per-pupil allocation for locally identified instructional needs.

Building Operating Expenses: The operating and maintenance expenses at each building are centrally funded to ensure an adequately maintained school and a safe and appropriate environment for instruction.
