Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Student Services Department continually strives to improve parent communication and engagement. We review, revise, and improve documents that are shared with families at PPT, 504, and other meetings to ensure that family members are well apprised of their rights and our services in a way that is easy for them to understand.

We have continue to improve our student attendance rate over time. For both the general student population and among students designated as "high need," we continue to have the best attendance rate among all similar districts.

Schools are continually engaged in helping staff members better understand effective methods of communication and engagement. Staff continually seek to engage parents and how to support student learning at home and how to support student learning at home and this is supported curricular through the district's Envision 2.0 mathematics series which has substantial at-home support tools.

Efforts to Reduce Racial, Ethnic and Economic Isolation

We participate in Hartford and Waterbury magnet schools, sending approximately 150 students each year. Our participation in the CAPTivating Kinds initiative is purposefully designed to connect students with those from other cultures and demographics. We have also been working with People Investing In People, this program is designed to have high school students help students in Africa learn Technology, through video chat. Elementary students are also working with students in Ghana, in which they are also video chatting and teaching students there about technology. Through our own curricular efforts and also through programming with our parent groups, students gain access to a wide variety of cultural programming and events.

The 30 members of our district-wide data team continually research and address disproportionalities and equity gaps in data about student outcomes. Addressing equity gaps is a mandatory portion of each administrator's yearly performance evaluation.

Schools hold "town hall" meetings, community outreach events, Model UN, and presentations by the ACLU and other such groups aim to bring a wide variety of cultural perspectives to students of Wolcott.

We are actively researching and pursuing greater variety and representation in instructional materials such as classroom reading libraries.

Equitable Allocation of Resources among District Schools

As an example, in recent data, one of our three elementary schools was clearly performing better on standardized tests. So, when an additional part-time staff member was approved during the budget process for math intervention, the person's time was equitably divided between the schools with lower performance. All schools have access to math interventionists, but those schools whose data shows more need to get more personnel to support this effort. This decision is revised yearly to send the staff to support the students most in need. The current proposed budget seeks to increase TESOL and special education staffing equitably across the district.

Specialized programs that are centralized in one school are equitably located across the district.
