Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Amity Regional School District No.5 school improvement plans put a primary focus on students' social and emotional health. Professional Learning (PL) focused on trauma-informed instruction and strategies to support social emotional learning in the classroom. These multi-session professional learning opportunities were provided by in-district staff; thereby providing teachers with resources adapted to Amity students and colleagues who could offer individualized strategies in topics such as anxiety, trauma, mental health, and pro-social behaviors. Additional professional learning focused on supporting students as they adjusted to the expectations of full-time school including topics such as Restorative Practices, Mindfulness, Effective Feedback, Grading Practices, and Classroom Management.

Students who are supported socially and emotionally are available for learning, and Amity's other district improvement focus was on high academic expectations. ARP ESSER funding was used to provide summer learning interventions in 2021 and to increase the availability of the school-year Guided Study Program for all students in grades 7-12. The STAR Assessment was administered to all students in grades 7-8 and the data was analyzed by teachers to adjust the pace and content of whole class instruction, as well as to provide targeting interventions for individual students. Tenth grade students participated in the PreACT test during the administration of the school-day SAT. The District SRBI Committee met to clarify the process of identifying tiers of intervention and support. The BOWA Portrait of the Graduate (POG) Committee took feedback on the draft POG and completed final edits. Teachers started directly working with the POG, using spring PL to identify how, when, and where they assess components of the POG in current curricula and to analyze and discuss the 7-12 vertical alignment of the POG in each subject. Academic focus on reading was a high priority with the implementation of the Readers' Workshop model initiated for grade 7 & 8 English. The district resumed in full the Science Research Program, the Senior Service Learning Projects, and Senior Interest Projects this spring.

The Amity PDEC committee recommended that the district return to Amity's state-approved teacher evaluation plan. As such, most teachers had the opportunity to engage in a professional focus, connecting their professional growth to focus areas of school improvement. The district continued commitment to ensuring the extension of student learning from school into the home. The entire Amity District works diligently to ensure that parents receive ongoing communications. Principals send weekly newsletters and grade-level Google Classrooms were created to share information with high school students. Parents of students with special needs are invited to participate in Parent and Placement Team meetings, 504 meetings, or Student Study Team meetings. PowerSchool allowed parents and students easy access to attendance, schedules, and academic records, and Google Classroom was required for all classes to support students who were unable to attend school due to illness and quarantine. Each school has active Parent Teacher Student Organizations and parent feedback was an important component of the POG development.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Amity District engages in numerous initiatives designed to reduce ethnic, economic, and racial isolation. The district fully supports the Open Choice Program with 20 students participating in 2021-2022 and more seats filled for the next school year. Amity staff continued commitment to efforts around Diversity, Equity, and Inclusion. The convocation keynote focused on the neuroscience of bias and how more inclusive behaviors can be taught. PL choice was also provided on the topic of working with diverse populations. A particular focus was given to supporting students with special needs and LGBTQ+ students, as both populations demonstrated a higher need for support during 2021-2022. Aligned with PL on diverse populations, the Social Studies and English Departments initiated work on a curriculum equity audit tool. Understanding purpose and development of the tool was the primary focus for the year; application and revision will continue into the following years and other departments and content areas will be added to the audit cycle.

Each school received recognition from the Anti-Defamation League (ADL) with a "No Place for Hate"™ designation. This student-lead school climate program allows activities to be tailored to the needs of the school. Middle school students designed whole-school activities to raise awareness about issues of diversity and fairness. The high school students included the No Place for Hate kick off as part of the Fall 2021 Day of Dialogue - which complimented the sessions on the One Book One Amity theme of social justice. Both middle schools and Amity Regional High School sponsor a variety of student led clubs and extracurricular activities designed to reduce racial, ethnic, and economic isolation. The middle school Advisory Program and the high school Spartan Seminar offer opportunities in which direct instruction can be provided on topics such as allyship, microaggressions, and recognizing bias. Through a partnership with UCONN, a comprehensive school climate survey was administered to students and staff this spring. Administrators and School Climate teams will review that data, along with the parent survey, to inform ways to improve overall school climate involving all stakeholders.

Equitable Allocation of Resources among District Schools

The Amity Board of Education is committed to ensuring the entire district receives comparable resources through a fiscally responsible budgeting process. Annually, building principals, department leaders, and central office administrators collaborate to develop a budget that reflects needs and priorities of the district. Issues such as enrollment, improved student performance, curriculum revision, health and safety, student interest, special education, and capital improvements drive the budget. The administrative team works closely to prioritize requests in alignment with district and school goals. The Superintendent develops a proposed budget that is presented to the Amity Finance Committee (AFC). The AFC consists of members from the three communities served by the Amity District. The members review the Superintendent's request and suggest adjustments. The Superintendent and administrative team review the suggested adjustments and reallocate resources in an equitable manner. The Superintendent presents the proposed budget to the full Board for approval. A Public Hearing is held prior to Board adoption and the budget is approved in each town via a Referendum Process.
