Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Our Department of Pupil Personnel Services (PPS) continues to work in proactive ways to improve the special education programming for students and families. As always, special education staff connects with parents at the start of the year to build a partnership that will increase student success. Special education team members also share information with the general education teachers to plan supports that create opportunities for student success. Teams meet multiple times per year to review student progress and discuss possible adjustments to programming. As a Connecticut Agriscience Program, Region 12 works with multiple school districts to ensure excellent programming for all enrolled students. From the 8th-grade transition PPT to the senior year exit PPT, we team with students, families and school districts to maximize every student's opportunity for success.

Truancy is given special attention. In each school building, there is a team that monitors chronic absenteeism and truancy. In each instance, families are contacted and meetings are arranged to discuss the circumstances of each situation. If the student is from one of our sending towns, communication is initiated so the Local Education Association is aware and partners in the process. Individualized plans are developed in concert with the parents, students and school to best meet individual needs. Additional support like regular team meetings, school counseling, referrals to outside resources, classroom supports, and a case manager to monitor and support the student are just a few of the options that could be recommended and implemented. If necessary, a planning and placement team (PPT) will convene to determine if there is a need for special education supports.

Region 12 is committed to engaging all families in the educational process. Staff members are encouraged and supported to facilitate ongoing communication with families throughout the school year. Websites share information about school events, procedures, health and wellness information, and classroom and district newsletters. The PTOs in each building are active and provide support for educational enrichment activities and field trips. Parent-teacher conferences are offered twice yearly to ensure communication about student growth. The counseling department hosts a variety of informational sessions to engage families in important topics like internet safety, college planning, and financial aid options. Parents have access to technology that allows them to stay involved in their student's academic life. PowerSchool, Google Classroom, and Naviance are just a few of the tools parents can use to understand their student's progress. Staff also offers training to parents related to supporting their student at home.

Efforts to Reduce Racial, Ethnic and Economic Isolation

At the elementary level, a theme of Unity and Seasons of Our Best Selves, focused on acceptance, kindness, inclusion, and community. We celebrated Unity Day. Students studied diverse cultures. We celebrated and honored Dr. Martin Luther King, Jr with a school-wide book share: The Undefeated by Kwame Alexander. Black History Month was an ongoing pledge to promote diversity. We honored the contributions of African-Americans throughout our nation's history. Grades 4 and 5 completed individual choice research/report writing projects of someone who has made an impact on both our country and the world. In addition, grade level book selection was developed and shared: The Colors of Us, The Proudest Blue: A Story of Hijab and Family, Sulwe, Just Ask: Be Different, Be Brave, Be You, A Ride to Remember, and Separate is Never Equal. Student artwork was submitted to the Embracing Our Differences nationwide quote competition and exhibit. We celebrate Juneteenth with a book study using a variety of grade specific text such as Juneteenth for Mazie by Floyd Cooper and All Different Now: Juneteenth the First Day of Freedom by Angela Johnson. The secondary level humanities curriculum and our teachers develop learning experiences rooted in the perspectives and experiences of historically oppressed or marginalized groups. We sponsor a World Affairs Forum that pays special attention to global policies impacting the non-Western world. In our advisory program, we engage speakers who focus on important issues relative to human rights (a holocaust survivor, the ADL's "No Place for Hate", survivors of sexual assault and domestic violence) and develop lessons which illuminate disparities in the American experience based on race or class. The Danbury Women's Group delivered a program on anti-bullying and respect/tolerance. Students engaged in team-building exercises designed to help them connect with people whose experiences differ from their own, helping students understand and embrace diversity, equity and inclusion. Our "Spartan Club" engages in charitable community outreach programs. Finally, we implement a restorative justice model, providing training and counseling to students who demonstrate insensitivity toward those whose backgrounds or experiences differ from their own.

Equitable Allocation of Resources among District Schools

Region 12 establishes a budget to support students by balancing education and fiscal responsibilities. The budget process asks building and department leaders to forecast needs by evaluating current resources and upcoming initiatives to ensure all students' learning needs are met. Personnel cost is controlled centrally to support and promote equity of support, class sizes, and human resources amongst the four schools based on student population and programs. Special education cost is dictated by Individualized Education Plans that provide the Least Restrictive Environment while specializing in the education needed to allow student achievement. The 21-22 budget request was 0.79% above the prior year's budget. Region 12 staff utilized grants and negotiated contracts to help reduce costs. The district never compromises on educational quality as we seek opportunities to be resourceful while improving education. Our students benefit from small class sizes. We open opportunities for non-resident students to join our district through the agriscience or tuition-in programs. Students from surrounding towns have enhanced and enriched our schools introducing more diversity to our community.
