Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Regional School District 14

Narratives

School District Improvement Plans and Parental Outreach Activities

Using our Vision of a Learner to guide the district, Region 14 continues to emphasize academic and extra-curricular achievement, along with social and emotional learning. Community stakeholders determined the following VoL attributes to ensure all students graduate future-ready: Students think critically and creatively, collaborate and communicate effectively, demonstrate empathy, take initiative, persevere, adapt and adjust. Our schools focus on student-centered engaging learning for all, and developing student social and emotional learning skills. Both elementary schools have fully implemented the Yale RULER program. The secondary schools had training from a CSDE school climate consultant on restorative practices and building stronger student relationships. All students took the SEL Aperture screening to determine their social and emotional strengths and needs. Academic needs of all students are routinely assessed using a variety of math and literacy screeners. The Student Support Team (SST) also analyzes academic and SEL data to determine students that need additional support. School administration and support personnel attend weekly SST meetings to monitor student growth and the efficacy of student interventions to address the whole needs of a child. Two interventionists were hired in each building to provide math and literacy support. At the elementary school, the schedule was changed to include a dedicated 30-minute support period for every child. During this time building interventionists can deliver services, teachers can conduct small group instruction to include remediation and enrichment, and special education services are delivered. To improve special education programs and services for students with disabilities, professional learning opportunities specific to discipline focus areas were offered on improving reading, promoting prosocial thinking and behavior management workshops. Student service staff also participated in follow-up team consultation with experts in the field. In an effort to improve school engagement and decrease truancy, Region 14 hired a Social Emotional Coordinator to assist the school-based mental health team and school guidance counselors in supporting families and students. Parents and community members support a healthy, safe and positive school climate and culture, through the school and district Safety and Climate Committees, and a Parent Advisory Council. These groups analyze and adjust programs to build school culture, and implement safety protocols. Schools routinely contact parents through school newsletters, and weekly news via the Digital Backpack is posted on the district website. Other avenues of communication with parents include school Instagram accounts, and individual teachers sharing their classroom happenings. Parent involvement at the High School includes the Agriscience Parent and Alumni Association, Grad Nite Committee, Booster Club, as well as parent volunteers for drama, the arts, class council and other organizations. The district has active PTOs that support events like family ice cream socials, and BINGO night. Our schools hold many community student events, including musical concerts, plays, art shows, talent shows, science fairs, book fairs and field day.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The district continuously incorporates experiences and activities for students to increase their awareness and appreciation of diversity and other cultures. Curriculum has become more culturally relevant to include more diverse authors and resources. At the middle school, students virtually visit museums such as the National Museum of African American History and Culture, and the United States Holocaust Memorial Museum. The guiding principles at WMS are the "Warrior Way" including Respect, Responsibility, and Relationships. At Nonnewaug High School, the Advisory Program develops a culture of kindness, empathy and respect to ensure a positive and safe school climate for all members of the school. Student leaders in the Harbor Program lead advisory groups for freshman students, which include discussions on empathy and building relationships between students. The Athletic Council held fundraisers for the local food banks and partners with a youth soccer program in South Africa to provide soccer equipment to the participants. The Equality Association, a high school student-led organization, has a goal to spread awareness of social injustices and to teach racial, cultural, and religious history so that everybody at Nonnewaug can feel welcomed. In addition, a parent Diversity Equity and Inclusion Group meets with our NHS assistant principal and a newly-hired Social Emotional Learning Coordinator. Pride month was celebrated with banners and bulletin boards to honor and celebrate those in the LGBTQ+ community. Bethlehem Elementary works with Caring For Bethlehem, a community organization and assistance program for food security, emergency energy aid, clothing, and holiday assistance. Mitchell Elementary Student Council holds food drives for the local food bank. Our 1:1 Chromebook initiative allows all students access to technology to work from home or in school on platforms used by the district in math and literacy. For incoming Kindergarteners who may not have had the opportunity for pre-school given the pandemic, elementary schools offered a seminar and supplied literacy and numeracy tools for parents to use during the summer ahead of Kindergarten. The district also participated in CREC's virtual Minority Teacher Recruitment Fair.

Regional School District 14

Equitable Allocation of Resources among District Schools

Region 14 is committed to providing comparable district resources across its four schools. This commitment is demonstrated in a multi-phase budget process: planning, preparation, adoption, and implementation. During planning, building principals work with grade levels and departments to develop school improvement plans which are grounded in student achievement results and professional learning needs of teachers. The improvement plans drive the budget preparation process as school and district teams work to identify resources needed to achieve system goals. The Board of Education adopts a budget that aligns with its goals and supports the system's efforts to serve as a guide for instruction and decision making. During the budget adoption process, the Superintendent and Board of Education members hold community meetings to discuss improvement initiatives and funding needs. After adoption we consistently examine, analyze, and monitor the use of resources across all levels to ensure comparable distribution of resources.
