Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Lyme-Old Lyme Public School District continues to systematically implement SRBI (Scientific Research Based Instruction) through a well-designed RtI (Response to Intervention) Model.

The elementary model is designed and organized by two SRBI specialists who support interventions at all levels through a team of support professionals. Regular monitoring of each student's progress is reviewed by school based data teams to help drive future instruction. Students receive various tiers of instruction based on their mastery of curriculum skills.

Lyme-Old Lyme Middle School and Lyme-Old Lyme High School have implemented the SRBI model through special skills or study blocks. In these periods, students are able to receive additional tiers of instruction as needed. Certified and support staff assist in delivering the additional instruction.

Programmatic alignment to the Common Core State Standards continues in both Mathematics and English Language Arts along with adaptation of the Next Generation Science Standards. A revised renewal process has put greater emphasis on the use of multiple sources of data including observational data.

Technology applications continue to support instructional improvement initiatives. Teachers are using technology to manage student data and to provide reinforcement and assessments. The District's technology program and external grants and donations have continued to expand and upgrade the use of interactive digital display boards and mobile computing devices.

In the area of special education, collaborative teams of educators and specialists continue to work together to maximize inclusion opportunities and access to the curriculum for all students. Our staff members are supported in their pursuit of growth and learning and then "tapped" for their expertise in specific areas, including reading assessment and instruction, assistive technology, applied behavior analysis, social thinking, and more.

Parents are actively involved in their student's education through a variety of different methods including, but not limited to, regular parent presentations and meetings, online newsletters, academic tracking tools, and conferences.

The district works closely with local organizations to ensure all students are connected to the school system in some way. This allows for regular attendance and a strong sense of pride in the Lyme-Old Lyme Schools.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Lyme-Old Lyme School District continues its commitment to reduce racial, ethnic and economic isolation. It has done so by embedding culturally enriching activities into its curricular units of instruction across all grade levels allowing for opportunities to experience a variety of different peoples, lifestyles, belief systems, and cultures. The district also capitalizes on opportunities for its students to interact with others in broadening their understandings and experiences. This includes participation in LEARN Regional Educational Service Center activities and many teacher-initiated projects. As well, assemblies and programs are offered periodically throughout the year to educate students through interactions with others.

The District has retained a strong commitment to promoting cultural experiences through its world language program. The District begins its program in kindergarten and offers four different languages at the high school level.

The high school regularly schedules trips abroad. These are offered through numerous departments furthering the opportunities to experience a variety of different cultures and lifestyles.

Equitable Allocation of Resources among District Schools

The district is organized for elementary students into two K-5 schools and a single early childhood center. This organization makes comparable grade organizations, similarly sized schools, and addresses locational disadvantages for some preschool students. This also provides equal access to foundation services including administration, health, library, and other school based services.
