Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

As a small K-8 school, Kellogg School and its staff are committed to providing students and families with rich learning opportunities for academic, artistic, athletic, and social emotional growth. We encourage students to become leaders of their own learning through the gradual release of responsibility, a core element of our school improvement plan. All students establish annual learning goals and meet regularly with their teacher to evaluate their academic progress, through habits of work and Habits of Mind. All parents and students in grades 5-8 are able to see student grades through Power School in the parent portal. Student progress is shared with families during Student Involved and Student Led conferences in the Fall and Spring held with a combination of virtual and in person format this year. Teachers and staff are provided with regular ongoing professional learning opportunities both locally and at the Regional level to improve their individual and collective professional practice. We continue to support students with disabilities through onsite services provided through the Regional Student Service Center staff. Students receive services to support their individual disabilities through an individual educational program.

Truancy is not a prevalent problem at Kellogg School. If attendance concerns arise, we support these families through regular communication and follow up to ensure all students attend school regularly.

We continue to expand our focus on meeting the social emotional needs of our school community. Teachers have selected and integrated elements from the Habits of Mind into their instructional practice and goals. Teachers routinely communicate with parents in person, by phone, email, newsletters and virtual meets. Additional outreach was provided by our school counselor, school nurse and local mental health care and social service agencies when needed. Classes begin each day with Morning Meetings to provide students an opportunity to connect and check in. When remote learning was necessary, families were provided with a flexible and convenient location for pick up and delivery of student learning materials and technology devices. The principal sends home electronic newsletters and parent surveys to all families to communicate current school news and monitor and address family needs.

Parents are regularly informed of school happenings through the Principal's online newsletter. School events are widely published and communicated to the community electronically and in print. Teachers contribute to quarterly Regional newsletters reporting on classroom activities. Academic progress is communicated through, email, phone calls conferences and progress reports. Community involvement provides valuable feedback and support helping us to continue with our community composting partnership to manage our waste generated by our new lunch program.

Literacy remains an area of strong focus; students regularly check out books for individual and family reading. Students invite their families in to celebrate their reading and writing accomplishments. We have a strong partnership with the Hunt Library who volunteer weekly to read to our primary students. Kellogg School was recognized for the fourth year in a row as one of the 2021 Governor's Summer Reading Challenge top performing elementary schools in Connecticut.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Economic isolation is not a large concern for Kellogg School. Despite being a rural community, our proximity to Hartford, the Metro North Train line and New York City contributes to a diverse socioeconomic population. Our community is composed of families who own second homes to enjoy country life as well as families living below the poverty line. Students are exposed to diverse cultures from around the world through literature, foreign language, Social Studies, and the Arts. All students attend regular cultural assemblies at Kellogg to provide them with a deeper understanding of other cultures. Kellogg also provides programs to instill a positive and safe school community. These include research based programs, which are used to teach students about empathy and effective communication skills in grades K-4. Students in grades 5-8 are involved in various programs that provide support and assistance to set goals for academic, career, social, emotional and physical development. Students are learning about healthy boundaries, mental health, and resistance to drugs and alcohol. Our school and the Regional English Language Learner, ELL program focused on ways to help our students successfully integrate into the classroom and school community.

Field trips and community outreach played an important role to help bridge the divide of racial, ethnic, and economic isolation. We provided additional local and virtual opportunities which included student council activities and PBIS incentives to raise funds for local food banks, and charities. Students came together as a community to deliver gift donations of household necessities to our Senior Center, appreciation to veterans, and visits to local historic and nature sites for outdoor science exploration. Students participated in a school wide Earth Day celebration to learn about our local habitat and its animals. Hands on exhibits on composting, lambing, native frogs and Great Mountain Forest were presented. Sixth and 7th graders spent a week at Nature's Classroom while 8th graders spent a week in Boston visiting museums and other famous landmarks and historical sites. Younger grades visited local farms, nature preserves and theaters. Visits from exchange students provided additional cultural learning opportunities.

Equitable Allocation of Resources among District Schools

Lee H. Kellogg School, also known as the Canaan School District, is a district of one school. We are one of six, K-8 schools and a regional high school who comprise the Region One School District. We enroll students in grades K through 8th grade, offering a traditional program of studies. Our K,1,2 classroom is co-taught as is our grade 3,4 classroom. Our official enrollment count by the late fall of 2021 showed 80 students. Along with five other elementary schools, we finance a Regional High School covering a 250 square mile radius, a Superintendent's Office, and a Regional School Service Center. The funding from the local towns is based on a percentage basis. Historically, Kellogg School sends a high percentage of its students to the Regional high school each year. The Canaan Board of Education presents a budget to the Town of Falls Village Board of Finance and to the community. A hearing is held in April and the town vote is in May. Nearly all funding is through local taxation.
