Notes

Unless otherwise noted, all data are for 2023-24 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. To view performance on NAEP by student group, at

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

District Profile and Performance Report for School Year 2023-24

Regional School District 07

Narratives

Regional School District No. 7 represents the four small communities of Barkhamsted, Colebrook, New Hartford, and Norfolk where diversity is significantly limited. Our school district stretches over 160 square miles in northwestern Connecticut. All four of our towns qualify as rural areas, with the largest town population being just over 6,000.

Our school district consistently makes significant efforts to reduce racial, ethnic, and economic isolation through our integrated curriculum, specially designed programs, and student activities. Some staff members have created a Social Justice Committee to better understand how to ensure all students, staff, and families feel a sense of belonging. Some students have started their own Social Justice Club and the two groups work collaboratively when possible.

Our Middle School Social Studies teacher runs a Civil Rights Club where students learn about racial tension and work to promote the rights of all. In the past, the club has sponsored guest speakers such as; Mary Beth Tinker, and Dr. Terrance Roberts, one of the Little Rock Nine. This year, our students took a trip to Washington D.C. to learn more about the Civil Rights movement in our country.

The district provides regional opportunities for students in the areas of agricultural education, vocational education, and special education programs. These programs expand our racial diversity and ethnicity. Northwestern participates in a successful football co-op. 30 of our students play on a team with students from The Gilbert School, located in Winsted, and Housatonic High School located in Falls Village. It can be noted that Winsted has a different socio economic make-up than New Hartford, Barkhamsted, Colebrook, and Norfolk.

Finally, in alignment with state law, we submitted our Increasing Educational Diversity Plan to the state for approval. Our plan was approved by the state with no additional requirements or conditions.

Regional School District 07

Equitable Allocation of Resources among District Schools

One of Regional School District No. 7's goals is to provide adequate staffing to enable us to offer a broad program of studies for our students. Our budget passed by an overwhelming majority in all four regional towns.

The education budget is initially prepared and submitted by each academic department to their principals. After careful review, the principals present the budget to the Director of Finance and Operations and finally to the Superintendent of Schools.

The allocation of resources is carefully aligned with the district goals and those of the middle school and high school. The Director of Finance and Operations develops a plan to address long term facility items that need to be addressed. The facility encompasses both schools and athletic fields.

The middle school students are organized in 3 academic teams. The students remain in these teams throughout 7th and 8th grade. Resources are equally shared between teams and departments, as they are aligned to school goals.

Financial equity has been established between the departments and teams. Equity of resources is monitored by the building principals throughout the school year.
