Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: Fewer than 6

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Graduation Rate Gap	.	.	.	.	.

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

Chaplin Elementary School offers support services for students in need of Tiered intervention. CES has two full-time interventionists: one Math Intervention Specialist and one ELA Intervention Specialist. Each class has a dedicated, daily intervention time for Math and one for ELA. Our schedule provides teachers with a vital weekly data time to collaborate with interventionists, administration, and others in order to use data to guide the curriculum and instruction as well as to analyze numerous data points in order to determine the level of tiered intervention required.

Our Special Education Team meets weekly with the Director of Special Education to assess current academic and behavioral programs, student progress, staff and resource utilization at CES. Understanding the importance of home- school communication and support, all staff members working with students communicate regularly with parents to update them of student progress on their individualized goals. Attendance at CES improved during the 2020 2021 school year. This is partly a result of improved efforts to work with our students and families on the social and emotional aspects of student development. Prioritizing a community in which all students have a sense of belonging and acceptance, our monthly core values guide our instruction in personal responsibility. This has given students a better understanding of the consequences of their actions on others which has resulted in more self-regulation. In addition to this, improved communication with the parents of students whose attendance gives rise for concern has led to a better family understandings of the need for students to be in school.

CES was unable to conduct Family Event Nights this past year due to the pandemic. Our staff had to come up with new ways to engage families with student learning. Staff built upon their skills to provide visible learning as well as improved written feedforward and feedback on student work samples in order to help parents understand more specifically what the students were doing well and which skills and concepts they still needed to build in order to gain mastery. An increase in the frequency that class newsletters was noted throughout the school year. More time was spent with digital communication with parents that allowed teachers to demonstrate a particular strategy or skill for parents to understand classroom objectives and processes.

Our efforts to include parents in decision making continues to increase as all stakeholders better understand the importance of a collective endeavor to help students reach their potential. Information collected from numerous parent surveys guided us in providing for our families throughout the school year. The surveys also provided guidance for professional development for the staff. Newsletters were sent to parents to explain our standards referenced report card as well as NWEA scores. Parents were invited to schedule time to meet with teachers or school administration to review their child's results.

At all grade levels, we strive to create and adopt rigorous and engaging learning tasks that develop metacognition in our students as they promote a dialogic approach and students learn how to revise their thinking. Balancing whole class lessons with lessons for small groups of students having similar needs fosters a sense of community and trust.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Chaplin Elementary School is a Pre-K through Grade 6 School, located in the northeast corner of Connecticut. The school ended the year with 143 students, with 17% of the student population having a diverse ethnic background. The school population has remained relatively consistent across the past three years; however, the diversity of the student population is slowly shifting to be more diverse.

Our fifth and sixth grade classes were involved in a Pen Pals project this past year with students from across the nation. This gave them the opportunity to meet and discuss cultural differences among the states as well as to gain an awareness for diversity outside of their local region.

The whole school took on the initiative to read more diverse literature (characters and authors) throughout the school year. The different perspectives afforded the students the opportunity to make their own judgments about how people with different backgrounds influence one another. Readings gave the students background knowledge that allowed them to use compassion and empathy as well as realize that people of all types have similar needs to maintain safe environments and to be a part of the same local community. These realizations continued during afterschool book clubs that contained perspectives of characters that students could make connections with.

Chaplin Elementary School qualified for free breakfast and lunch for all students this past year. Maintaining an awareness to our student and family needs this year was critically important as we cooperated with outside groups to provide for families in need. The CES Leadership Development and Education Program teaches students in grades three through six the importance of community. Students led the way in conducting food banks, collections, and fund raisers to provide for community members in need. The work done by the group helps our students to see the benefits of neighbors helping neighbors.

The students of Chaplin have the option of enrolling in the local inter-district magnet school which selects students by lottery.

Equitable Allocation of Resources among District Schools

Chaplin is a one school district. Responsible use of funds ensured equal access to digital resources for all students by creating a classroom one-to-one digital environment.
