Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: Fewer than 6

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Graduation Rate Gap	.	.	.	.	.

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

In Eastford, we are working in collaboration with support from EastConn, our regional center, on a more personalized approach to learning. Our work, to date, has been focused on the development of the Portrait of the Eastford Learner, our vision of the qualities we want all of our students to attain by the end of their grade 8 year. We are in the process of including references to these qualities in all of the curriculum documents that we are developing. Due to the Covid-19 pandemic we did not have access to the state generated assessments. Our teachers and administrators, however, continued to use data from in-house assessments and observations to inform instruction and implement personalized success plans to improve student achievement. All students participate in assessments that are analyzed for both group and individual performance on specific skills. The data collected are used to inform instruction and provide appropriate interventions for students requiring enrichment or reinforcement. The Common Core Standards-Based Report Cards and data are maintained electronically and follow students from grade to grade to facilitate curricular articulation. The Eastford Elementary School has established a Student Assistance Team (SAT) to facilitate the Response to Intervention (RTI) program. The team analyzes data and assists teachers in developing action plans, monitoring the progress of students and communicating performance with parents. Parents are invited to examine student data at parent conference times or upon request. Special education teachers and general education teachers collaborate at SAT meetings to ensure that action plans for regular and special education students are skill-specific and carried out with optimal fidelity and efficiency. In the area of special education, Eastford has focused on increasing the inclusion of all students with disabilities in the regular classroom. The special education teachers are experts at inclusion, and they co-teach at many grade levels. Eastford Elementary has few attendance and truancy issues.

The Eastford District is fortunate to have four active parent groups, the Eastford PTO, the Middle School Fundraising Group, the Sports Boosters, and the Readiness Council. In addition, this year, a Reopening Committee comprised of parents, guardians, teachers, administration, a Town representative and a BOE member held several meetings to plan for and monitor the safe reopening of Eastford Elementary School. All stakeholders regularly help the school function as a collaborative, inclusive and resourceful educational community. Due to the pandemic, the Eastford PTO, the Middle School Fundraising Group and the Sports Boosters were not able to provide their customary support to our students. They did, however, find alternative ways to support our efforts. The Readiness Council continued its efforts to support the preschool program and attempts to include all parents who have pre-kindergarten children in outreach communications.

The school issues a monthly newsletter to inform families about academic and extra-curricular activities. Town wide events are also published in this newsletter. The school's website is being used as a primary home-to-school communication tool. All teachers post instructional information on the website. Postings in grades 2-8 include homework assignments.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Eastford School District is a one-school district; the Eastford Elementary School houses grades PK-8 and most high school students attend Woodstock Academy. Eastford has little racial or cultural diversity, yet staff members continue to look for ways to support efforts to reduce racial, ethnic and economic isolation. The curriculum is aligned with discipline-based standards as well as Connecticut's Common Core of Learning. Up-to-date curricular goals and materials provide a powerful vehicle for multicultural education and allow for the seamless inclusion of current events and topics that incorporate real-time examples that support the curriculum. Recent purchases of teaching materials that reflect the diversity of the communities surrounding Eastford further enhance our programming. We continue to increase the resources of the Media Center. Book collections and multimedia programs are growing in volume and in diversity. Mobile computer labs have become extensions of the Media Center, through which our students have been able to collaborate with students throughout the United States and even overseas.

Due to the COVID -19 pandemic the students were not able to participate in offsite, in-person experiences or have live interaction with on-site guest speakers that emphasized the importance of becoming active, constructive members of a larger community. Our staff, however, utilized our technology applications and resources to provide students with opportunities to participate in virtual field trips and interact with academic experts located throughout the world. Some of these programs included work with Junior Achievement in grades 5-8, interactive reading programs in collaboration with authors and other elementary schools in CT, and science programs that helped students to learn about clouds, Antarctica and the oceans. They also participated in virtual cultural programs such as learning about the Amistad through Mystic Seaport, discovering how Holidays are celebrated around the world, and participating in a program called, Three Cultures, One Land to learn about the early settlers of Jamestown. The regional service center, EastConn, offers regional programs for staff and students. These foster communication and relationships between Eastford and other more
