Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: Fewer than 6

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

	NAEP 2019		NAEP 2013
READING	Grade 4	Grade 8	Grade 12

National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³ College readiness exams and benchmark scores are as follows:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Indicator		Index/Rate	Target	State Average Index/Rate
Chronic Absenteeism	All Students	2.4%	<=5%	19.0%

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in the student group or the indicator is not applicable based on grades served.

Gap Indicators	Non-High Needs Rate ¹	High Needs Rate	Size of Gap	State Gap Mean +1 Stdev ²	Is Gap an Outlier? ²
Graduation Rate Gap	94.0%	92.9%	1.1%	9.8%	N

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

The Madison Public Schools (MPS) has responded to a challenging time with a focus on continuing to provide a high-quality education for every child. Educators have dedicated themselves to flexing their professional practice to include online and in-person learning. Administrators have supported staff technological professional development concurrently with balancing social/emotional well-being. The district now engages all schools in reflecting upon our current status in order to create renewed school development plans for a 3-year period (inclusive of the 2021-22 school year). The plans will have 4 main sections: Academics Rigorous Curriculum, Instruction, and Assessment; Climate Positive School Cultures; Talent Staff Development; and Systems for Student Success.

At MPS, students demonstrate both growth in content standards and also in the areas of critical thinking, creative thinking, communication and collaboration, self-direction, and global thinking. Demonstrated growth in these five areas is expected for every student in Madison. Parents and students played an important role in the steering committee that selected the capacities to be included in the Madison Profile of a Graduate. Parents are always a very important part of their child's education, but through the pandemic we found even more opportunities to expand our work with our community. Throughout the school year, Madison produced a mini webinar series for parents that have been recorded and found on our website. The series helped parents with a variety of topics from dealing with student anxiety, executive functioning, starting to read and college applications. In addition, the option of attending PTO meetings with Zoom doubled our numbers of attendees in many cases. School conferences conducted with technology also gave new flexibility for working parents. Schools monitored student attendance and involved parents in reducing chronic absenteeism. Absenteeism was closely monitored during distance learning to ensure all students remained engaged while remote learning. MPS has an in-house Effective Schools Solutions (ESS) program that actively works to support students who are identified as being at risk for chronic absenteeism and school avoidance.

The district continues to show strong accomplishments as indicated by state and/or national program recognitions for athletics, the arts, technology, and scholarships. Teachers are recognized by contributions to their discipline while students are celebrated for achievements ranging from arts and athletics to student leadership and academic achievement. Madison has a range of services and supports and maintains a close working relationship with town and regional agencies.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Madison Public Schools are committed to fostering the understanding of various racial, ethnic, social and economic groups in our society and world. Students are being prepared to learn, work and live as responsible, productive members of a diverse global society. School staff helps students understand attitudes and positive behaviors that give them skills to increase cultural competencies and learn skills to make positive contributions. Madison practices cultural competencies to integrate the patterns of behavior that include thoughts, communications, actions, customs, beliefs, values, and the institutions or racial, ethnic, religious and social groups.

There are dedicated pages on the website to the district approach to developing strong social emotional learning. We have a district-wide committee of 40 people who examine district practices that address the needs of the whole child and responsiveness to living in a global society. Madison schools respect diversity, build capacity for cultural self-assessment, and are conscious of the dynamics inherent when cultures interact. In addition to special programs and speakers, there are teacher and student exchange programs, interscholastic programs, international travel opportunities and outreach programs. Educators incorporate learning activities to celebrate diversity in curriculum and instruction, as well as at school events. We require our students to engage in global issues, take multiple perspectives and develop citizenship. The curriculum is posted on the district webpage with each content areas unit overviews detailed.

MPS is a participating district in fifteen inter-district magnet schools and five inter-district projects designed to reduce racial, ethnic and economic isolation. Administrators, counselors and teachers work with staff members of the inter-district magnet schools to facilitate opportunities for students to learn with students from cultures different than their own. Programs and grants that grow out of these partnerships allow us to expand these opportunities beyond the confines of our school.

Equitable Allocation of Resources among District Schools

The budget development process for Madison Public Schools begins with enrollment projections for each school as a basis for the per student allocation required to support student instruction, including textbooks and instructional supplies. An allocation formula is used so that elementary and middle schools have comparable resources while recognizing that the high school needs more costly equipment and specialized supplies. Analyses include audits, review of instructional versus non-instructional costs, study of budgeted versus actual expenditures, impact on facilities.

Budgeting by school sites decentralizes decision-making, thus promoting school staff input and providing for expenditure choices to meet student needs. School-based budgets are reviewed ensuring they correspond with the requirements of statutes, educational goals, district policies and priorities, and collective bargaining agreements. All funding is distributed according to guidelines and regulations.

The use of federal funds (American Recovery Act) supported the district in providing one full time social worker for every building. Our resources support both student learning as well as social emotional well-being.
