Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: 900

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

READING	NAEP 2019		NAEP 2013
	Grade 4	Grade 8	Grade 12
Connecticut	40	41	50
National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Gap Indicators	Non-High Needs Rate ¹	High Needs Rate	Size of Gap	State Gap Mean +1 Stdev ²	Is Gap an Outlier? ²
Graduation Rate Gap	94.0%	91.3%	2.7%	9.8%	N

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Milford School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Our school district Board of Education goals (2016-2020) were redesigned during the spring of 2021 to continue our systemic focus on improving student achievement in the academic areas. Additionally, our revised goals are aimed at supporting students in the development of 21st-century skills as demonstrated through their progress toward indicators outlined in our Milford Public Schools Vision of the Learner. In addition to the 4 components of our district Vision of the Learner (Scholarship, Personal Development, Citizenship and Creativity/Innovation), our Board of Education partnered with administration in the development of Commitments aligned to our established goals. The Commitments prioritize growing a learning culture rooted in developmental relationships within the school system and across the community at large with our Milford Public Schools families and local partner agencies. A continued focus on ensuring a safe and secure climate that promotes high-quality instructional experiences and opportunities for excellence for each student is central to the revised goals and Commitments. All professional learning sessions are aligned to this singular district improvement strategy of facilitating high-quality instruction and have resulted in "increased coherence across the systems and" resources available to support adult and student learning. Fostering a climate in which all students, Milford Public Schools families, and staff feel a genuine sense of belonging and inclusion is central to the mission.

We continue to explore initiatives to improve parent and family partnerships. As a district, initially influenced by the impact of COVID 19, we leveraged our technology resources to increase partnership with students' families and innovated our practice in this area. Our 14 schools hosted virtual open house sessions and conferences as well as shared regular communications through our Google Classrooms. Parent Universities were offered to provide insight and open dialogue on topics including Distance Learning with Instructional Technology, Developing Healthy Media Balance, and Social-emotional Learning. Tier II interventions including freshman team, student assistance team, meetings with the dean of students and/or school counseling department, and staffings with teachers, administration, parents and guardians are designed to personalize students' learning experiences and to strengthen student learning outcomes. The special education department worked with staff to revise many of the special education programs in the district to improve instruction, schedules, and services for our students. "Technology was used to provide virtual access to families to facilitate the programming of Individualized Education Plans, 504 Accommodation Plans as well as Health Care Plans. We partnered with our local Bridges agency to support students and families in their efforts to maximize learning experiences while supporting emotional and mental health during the continuing pandemic. Throughout the school year, we leveraged best practice strategies to support attendance and engagement for all learners while operationalizing distance learning, in-person and hybrid schedules. We conducted regular meetings at the building and district level to support students and families through conferences and home visits.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Our district maintains efforts to reduce racial, ethnic, and economic isolation as well as to innovate practices toward equitable access and excellent outcomes for each learner. Hotspots ensured Internet access for all learners. Members from our Information Technology Department made home visits to provide technical support with individual district-assigned devices. Our Food Services Department coordinated a Curbside PickUp for families who were experiencing food insecurity. We partnered with a local non-profit to provide nutrition supplies to students and families in need. The "Salvation Army Backpack Program" provides new backpacks full of school supplies. Partnership with our local YMCA and Boys and Girls Club ensured affordable before and after-school childcare options for our families. Our Vision of the Learner describes the characteristics and competencies that our district seeks to develop in learners of all ages. The elements of the Vision of the Learner (Scholarship, Personal Development, Citizenship and Creativity/Innovation) are interrelated, equally important and represent the foundation of success and contentment throughout life, whatever path is chosen. In the spring, the Milford Board of Education adopted a Resolution Statement in the area of Race, Equity, and Social Justice indicating that our system will be a progressive district that will provide an inclusive environment where every student, teacher, support professional, parent and school community member will be treated with dignity and respect. A student advisory committee was formed to provide a platform for student voice in the work of race, equity and social justice. The district host's students through the Open Choice program as well as continues to support enrollment in magnet school programs. "We designed a Peer Mentor program in which high school students partnered with elementary students to support their continued learning and engagement during the various instructional models of in-person, virtual and hybrid teaching and learning. The Wingman Program offered student-led advisory sessions including adults as participants. A Be Kind group created community service projects for inclusivity and support of those in need.

Equitable Allocation of Resources among District Schools

Ensuring equitable allocation of resources among our fourteen schools is a priority for the" Milford Public Schools." "As we shifted to a remote instructional model in March 2020 due to the COVID-19 pandemic we completed our 1:1 device technology initiative; ensuring that all PK-12 students and families had district-issued Chromebooks to support equal access to our robust distance learning program. During the 2020-2021 school year we implemented the use of tablets for our PK-Grade 2 learners. Additionally, HotSpot devices were issued to families in need of support with regard to Internet access. "Additionally, Milford Public Schools has established a centralized process for ensuring that all students have access to textbooks, technological tools such as computers , and other instructional materials." District-issued instructional materials and supplies were provided for individual learner use for both in-person and distance learning models.
