Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: 76

Number of school-based arrests: Fewer than 6

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

READING	NAEP 2019		NAEP 2013
	Grade 4	Grade 8	Grade 12
Connecticut	40	41	50
National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Indicator		Index/Rate	Target	State Average Index/Rate
Chronic Absenteeism	All Students	13.8%	<=5%	19.0%

Graduation Rate Gap	94.0%	82.0%	12.0%	9.8%	Y

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

During the 2020-2021 school year, the New Milford Public Schools continued their efforts to ensure robust systems for communication were in place to support families as they partnered with us. Efforts were made to keep communication open with parents despite the difficulties presented by the COVID-19 pandemic. In addition to increased communication regarding the reopening of schools and health and safety factors, teachers and administrators worked diligently to develop seamless systems of communication and support.

Google sites were created to provide families with video tutorials and links to help support the collaboration between home and school for teaching and learning. Special Education staff received continuous training in the Foundations program and special education paraprofessionals received training in Master Teacher. Our BCBA worked with our staff to train them to support our students when they are in crisis.

To support students' success, we reviewed the importance of attendance and reviewed the expectations and actions taken if excessive absences occurred. This was done at Principals meetings, Curriculum Night, and PTO meetings. The challenge in a pandemic is teasing out the absences related to COVID and those that were not. Working together, our Social Worker, School Psychologist, BCBAs, and Administration, communicated with families frequently and worked with those families in need of additional support. Regular home letters to parents were sent with students having four or more absences a month. Valuing the opportunities to meet directly with families, teachers and administrators were provided with training to conduct video conferences. This allowed for meetings and conversations with families to occur for formal meetings such as student conferences as well as informal meetings as needed, thus ensuring an open door policy. We maintained open lines of communication through virtual PTO meetings, weekly parent calls, and including parents on our various building committees.

Efforts to Reduce Racial, Ethnic and Economic Isolation

During the 2020- 2021 school year, staff engaged in training on school climate and Restorative Practices. Additionally, staff set goals that focused on social-emotional learning for students and were committed to helping students grow in self-awareness, self-management, relationship skills, and responsible decision making. Staff also worked hard to spend more time making connections with students and building community in their classrooms. Our district faculty remained committed to being connected to our students. Examples of this included keeping the Wingman Movement alive at NMHS by designing and implementing activities that focused on making connections and discovering our commonalities through the Advisory program. At our other buildings, programming such as PBIS: CARE Assemblies, Character Traits, Choose Love, Restorative Practices, 100 Positive Calls Home were in place to support our efforts to reduce racial, ethnic, and economic isolation.

Equitable Allocation of Resources among District Schools

During the 2020-2021 school year, our teachers continued to receive the training and resources needed to ensure the students' needs were addressed. We worked to create balanced classrooms through thoughtful placement, attending to the needs of students.

Our teachers continued to receive training in the use of small groups, targeted instruction in reading and writing through our instructional coaches using the Teachers College Reading and Writing curricula materials. They also received training in math workshop from our math coach.

Within the walls of New Milford High School, resources were allocated to each department based on need. For example, the visual arts and sciences require more money to purchase consumable items for their courses. For other items, such as textbooks and equipment, department heads meet with the building principal to discuss budgetary needs. Every effort was made to get departments what they needed to provide an effective and dynamic learning environment.

Throughout the pandemic year, we were still able to provide high-quality culturally diverse experiences, albeit virtual, for our students.
