Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: 83

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Indicator		Index/Rate	Target	State Average Index/Rate
Chronic Absenteeism	All Students	29.7%	<=5%	19.0%

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in the student group or the indicator is not applicable based on grades served.

Gap Indicators	Non-High Needs Rate ¹	High Needs Rate	Size of Gap	State Gap Mean +1 Stdev ²	Is Gap an Outlier? ²
Graduation Rate Gap	94.0%	90.3%	3.7%	9.8%	N

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

While the 2020-2021 school year was filled with various challenges related to the COVID-19 pandemic, the Plymouth Public Schools continued to make improvements throughout the school year. District wide goals emphasized the safety and well-being of students and staff and focused on an increased awareness of social emotional skills, updating and enhancing various curriculums, and developing the instructional capacity of our certified faculty. With regard to instruction, we continued the implementation of our instructional framework, trained our staff on activating a lesson, and providing a well-structured mini-lesson. The District Improvement Team met throughout the school year to evaluate student achievement. They examined various factors, such as student attendance, that had an impact on our achievement results. Additionally, each of our four schools developed a School Improvement Plan that was closely aligned with the District Improvement Plan. Teachers utilized these plans to develop their individual and departmental and grade level goals. Along with the focus on academics and the student learning experience, our teachers continued to implement our emotional intelligence work. They utilized the "Charter" and "Mood Meter" consistently at all levels. With regard to communication, our four principals sent out weekly email blasts to parents and the Superintendent of Schools provided the community with monthly updates. Our faculty was also in constant communication with families during school closures and distance learning periods. Using Google as our platform, our parents and students were in constant communication with our teachers who were able to support parents working at home with their children and students who were truant to school. In the upcoming school year, our Director for Curriculum and Instruction and Director of Pupil Personnel will be collaborating with certified faculty to begin the process of developing effective SRBI protocols and procedures at all grade levels. This will assist in reducing the number of students being referred for special education services and will help our teachers focus on the students with verified learning disabilities. Also, as a district we will be working to create a Strategic Plan and a Portrait of the Graduate. The work with both of these documents were stalled due to the pandemic. This vital work for school improvement has been incorporated into the 2021-2022 professional development plan.

Efforts to Reduce Racial, Ethnic and Economic Isolation

In collaboration with NESDEC, the Plymouth Board of Education engaged in a thorough process to examine reconfiguration options designed to reduce racial, ethnic, and economic isolation. After receiving parent, staff, and community feedback, the Board of Education decided to shift from two traditional K-5 elementary schools to a prekindergarten through grade two and a grade three through grade five school. This elementary school reconfiguration will take place in the 2021-2022 school year and will drastically reduce the racial, ethnic, and economic isolation in our school community. Academically, embedded in our elementary curriculum are appropriate grade level opportunities that expose students to our diverse world. At the middle and high school levels, social studies, world language, and language art teachers introduce students to a variety of cultures and traditions through the utilization of multicultural literature. In addition, our eighth grade curriculum contains a unit on prejudice and human rights. Secondary students also have the opportunity to engage in numerous civic opportunities and events that bring students from surrounding towns together through our high school Leo Club program. Additionally, at Terryville High School, the social emotional learning opportunities have connected our students with neighboring high schools where they created coalitions towards a culture of caring and learning. Finally, while there is a higher percentage of children receiving free and reduced lunch that attend the Plymouth Public Schools, the strong support of the community and district collaborative programs assist in providing a supportive and nurturing learning environment.

Equitable Allocation of Resources among District Schools

The Plymouth Public Schools is committed to allocating resources in an equitable manner. The Board of Education goals drive the district/school improvement plans and are the foundation of building a district-wide budget. The budget process is collaborative. Teachers work closely with their building administrators, district leadership teams and superintendent in order to ensure the highest quality educational experience for our students. This process assures that a responsible budget is created, aligns with our district goals, and supports the needs of our schools. Within this process, the district leadership team reviews data from each school to provide equitable allocation of resources across all district schools and uses the budget development process to realign resources when necessary. In the 2021-2022 school year, we will begin to utilize a multi-year outlook on the budget to address identified future needs of each school.
