Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

NOTE: To protect student privacy, gender counts are suppressed (*) when fewer than 6 students enrolled in the district identify as non-binary.

² This table represents students in grades PK-12 reported by the district in the Public School Information System (i.e., PSIS Reporting District).

³ Students in this category are students with an individualized education program (IEP) only. This category does not include students with Section 504 plans or services plans.

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: 9

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

	Grade 4	Grade 8	Grade 12
Connecticut	40	41	50
National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Students with Disabilities	46.7	*	*
District	75.0	119	45.8
State	85.0		36.0

³College readiness exams and benchmark scores are as follows:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Indicator		Index/Rate	Target	State Average Index/Rate
Chronic Absenteeism	All Students	8.5%	<=5%	19.0%

Graduation Rate Gap	94.0%	83.3%	10.7%	9.8%	Y

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

The district has begun exploring ways to make our system learner-centered, which has included engaging learners, parents, employees, and other community members in conversations about reimagining education. Although these learner-centered ideas will continue to be shaped through additional conversations with school-community stakeholders in the future, the five fundamental elements are: learner agency, socially embedded, personalized, relevant, and contextualized, open walled, and competency based. The work also includes the recent Portrait of a Citizen work, as well as the district's core ethical values. A learner-centered paradigm shift will also serve to dramatically reduce and ideally eliminate the systemic inequities that exist in the current Industrial Age school-centered paradigm. COVID-19 presented unprecedented challenges and opportunities for us to support our learners during the past school year. Outreach to parents and families shifted dramatically to an almost exclusively remote/virtual format due to health and safety protocols on our school campuses. In addition, approximately 15% of our learners selected to access school remotely during 2020-21. Our teachers and support staff utilized Google Meet and other video conferencing tools to facilitate synchronous learning sessions, as well as conversations, conferences, and formal meetings with parents and families. One of the lessons we learned over the past year is how convenient and efficient remote meetings/conferences can be for all participants, and we hope to continue utilizing these technologies to improve communication with parents and families even after in person meetings return to our regular practice. In addition, we have used our website, social media, and ParentSquare platforms to keep parents and families up to date on significant school-level and district-level information related to COVID-19 and other matters.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The district has begun exploring ways to make our system learner-centered, which has included engaging learners, parents, employees, and other community members in conversations about reimagining education. Although these learner-centered ideas will continue to be shaped through additional conversations with school-community stakeholders in the future, the five fundamental elements are: learner agency, socially embedded, personalized, relevant, and contextualized, open walled, and competency based. A learner-centered paradigm shift will also serve to dramatically reduce and ideally eliminate the systemic inequities that exist in the current Industrial Age school-centered paradigm. Populations of learners and families who have historically been marginalized by the prevailing system of education will feel more connected to school and experience more individual success if and when we are able to make this transformation. While that transformational work is taking place, we also continue training related to equity and diversity with assistance from SERC with a specific focus on understanding and addressing issues related to systemic racism. Our schools use skype, pen pal programs, technology, curricular activities and literature to enhance knowledge of diverse cultures. Learners of all ages use technology to connect remotely with students from other states and Canada in order to learn about their schools, cultures and geography. Learners are exposed to the people and traditions of different cultures through cultural arts programs sponsored by the PTO. The Unified Sports program brings together learners with special needs and their peer partners with other Unified Sports teams for soccer, basketball, bowling, track and volleyball. (Many of these programs were significantly limited in 2020-21 due to COVID-19 health and safety protocols.).

Equitable Allocation of Resources among District Schools

The allocation of resources begins with the foundation of building a district-wide budget that supports children from the towns of Middlefield and Durham in order to ensure the highest quality educational experience for all children. The budget process is a collaborative one where teachers work closely with their building administrator and the district leadership team and superintendent work closely with the Educational Resources Committee and the Board of Education. This process assures that a responsible budget is presented to both communities for a vote in May. Prioritization of needs is aligned with district goals. The collaborative budget process assures that the administrative team works closely together to prioritize needs and assure that there is an equitable allocation of resources across all district schools. A multi-year outlook is used to address identified needs over time.
