Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

Number of students in 2019-20 qualified as truant under state statute: Fewer than 6

Number of school-based arrests: 0

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

Narratives

School District Improvement Plans and Parental Outreach Activities

During the 2020-2021 school year, Salisbury Central School had to find ways to maintain and improve the quality of education provided for all students, despite the challenges created by the pandemic. Our focus for both special education and regular education was on data collection and tiered interventions. Teachers tracked and analyzed data using Fastbridge, classroom or regional assessments, and cognitive assessments. Our grade level data teams met every Thursday afternoon to identify gaps created by the closure, review student achievement, share strategies, and modify supports as needed. Both the Special Education and Response to Intervention teams meet weekly as well. Classroom teachers and special education teachers collaborated regularly on instructional strategies and needed modifications/accommodations. In order to meet the needs of all our learners, professional learning for staff remained centered on assessment, positive behavior strategies, and personalized learning. In addition, this year the school focused on social emotional health and learning. We used the MySaebars platform to track social emotional health and any "at risk" students.

At Salisbury Central School, we understand that regular attendance is critical for success at school. Families are asked to inform the school of pre-planned absences so that student work can be collected ahead of time. Absences are only excused if they meet the state guidelines. Families receive a letter if absences grow beyond what is allowed. Meetings are held with the principal, nurse, guidance counselor, and teacher(s) to help support families that have high numbers of absences or tardies. This year students who were away from school due to illness, quarantine, or travel were encouraged to join their classes through a live link where they could hear, see, and interact with their classmates and teachers. Attendance was recorded to show that these students were not in the building but were temporary distance learners.

The entire SCS staff values our relationship with families and community members. This year, the impact of COVID-19 was a priority in our communication. The principal and leadership team created an SCS reopening plan and parent communication to be shared before school opened. A community meeting was held to explain the changes and answer questions. A video was created to share information and to walk students through the buildings virtually, so they would be prepared for what school would look like on the first day. We added a new COVID landing page to our website with up to date information about the pandemic. Letters were also sent home to families anytime someone in our SCS community tested positive for the virus.

Teachers are in constant communication with families regarding student progress in the classroom. They send weekly newsletters or updates, post information on Seesaw, and use email and other media to communicate with families. SCS houses all information on the school website and social media pages. While in-person conferences with parents were not allowed due to COVID precautions, SCS was still able to conduct virtual student-involved conferences in EK-8 as a means of strengthening communication between parents, teachers and students. Google Meet and Zoom were used to facilitate the conferencing process. The school principal was available to conference

Efforts to Reduce Racial, Ethnic and Economic Isolation

Salisbury Central School is located in a rural corner of Northwest Connecticut. Therefore, it is critical for our staff to expose students to people, places, and cultures within our country and around the world. Both the Social studies and ELA curriculum are rich with diverse cultures. Once again, Grades 5-8 participated in The Global Read Aloud as a way to connect with students from other parts of the country and world. Current events from around the world are a frequent source of class discussion in all grades. SCS often partners with students from the local private schools (both have students from all over the world) to share their insights, projects, and activities. Salisbury Central's Spanish program began this year in Kindergarten. Students in the upper grades are able to communicate with students in Peru and Spain. While most field trips were cancelled this year due to the pandemic, teachers worked to find virtual trips designed to broaden student experiences. 8th graders spent a week on a virtual DC "trip", while students in Grades 3-5 "visited" the Clark Art museum via their chromebooks. Representatives from the Sharon Audubon and American Mural Program were able to come to campus and work with our students outside. 6th and 7th graders were able to experience a local version of Nature's Classroom where counselors traveled to our school site and utilized our campus and town resources to create a week-long outdoor adventure experience. The school's EL population includes students who speak French, Arabic, Chinese, and Spanish. These students share experiences from their homelands with the rest of the student population. The SCS leadership team has been working on ways to promote diversity, inclusion and equity for students and staff. This year the school partnered with a consultant to provide monthly diversity roundtable discussion groups. This work is expected to continue and expand in the coming school year.

Equitable Allocation of Resources among District Schools

Salisbury Central School is a one-school district that is generously supported by the town of Salisbury. Staffing is consistent with the needs of providing high quality teaching and learning to over 310 students. Funds have been allocated to allow increases in intervention and enrichment opportunities as needed. Funds are sufficient for textbooks, supplies, field trips, technology, and student activities. The Town has supported investments to allow for needed improvements to both buildings and to ensure the safety, maintenance, and beautification of the entire school campus. During this challenging year, the town ensured that funds could be utilized to maintain quality instruction and meet all health and safety guidelines required by COVID-19.
