Notes

Unless otherwise noted, all data are for 2020-21 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality, or to ensure that statistics based on a very small sample size are not interpreted as equally representative as those based on a sufficiently larger sample size.

N/A is displayed when a category is not applicable for a district or school.

State		19.0		1.4

Number of students in 2019-20 qualified as truant under state statute: 107

Number of school-based arrests: Fewer than 6

NOTE: In the 2020-21 school year, students attended school in-person to varying degrees; some learned fully/mostly remotely for the entire school year. Chronic absenteeism calculations are based only on in-person school days.

⁴ A student is chronically absent if they miss ten percent or greater of the total number of days enrolled in the school year for any reason. Pre-Kindergarten students are excluded from this calculation.

⁵ This column displays the count and percentage of students who receive at least one in-school suspension, out-of-school suspension or expulsion.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no table is shown here. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

National Assessment of Educational Progress (NAEP): Percent At or Above Proficient¹

	NAEP 2019		NAEP 2013
READING	Grade 4	Grade 8	Grade 12
Connecticut	40	41	50
National Public	34	32	36
MATH	Grade 4	Grade 8	Grade 12
Connecticut	45	39	32
National Public	40	33	25

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ³College readiness exams and benchmark scores are as follows:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, a modified table is shown below. All indicators that were not calculated for the 2020-21 school year (including overall Accountability Index) have been excluded and columns that referenced points have also been removed to avoid confusion. For additional information, please view Connecticut's waiver response at: <https://portal.ct.gov/-/media/SDE/Digest/2020-21/CommissionerMemoAccountabilityWaiver.pdf>

Graduation Rate Gap	94.0%	95.5%	-1.5%	9.8%	N

¹ If the Non-High Needs Rate exceeds the ultimate target (75 for Performance Index and 94% for graduation rate), the ultimate target is used for gap calculations.

² If the size of the gap exceeds the state mean gap plus one standard deviation, the gap is an outlier.

NOTE: A dot (.) appears in the table above when there are fewer than 20 students in at least one of the student groups used to calculate the gap measure or the indicator is not applicable based on grades served.

Connecticut's State Identified Measurable Result (SIMR) for Children with Disabilities

Increase the reading performance of all 3rd grade students with disabilities statewide, as measured by Connecticut's English Language Arts (ELA) Performance Index.

NOTE: As a result of ongoing challenges related to the novel Coronavirus Disease 2019 (COVID-19), Connecticut's request for a waiver from implementing district/school accountability for the 2020-21 school year was approved. Therefore, no SIMR data are available. Narratives

School District Improvement Plans and Parental Outreach Activities

The 2020-2021 school year required school districts to pivot and navigate through multiple challenges. First, we needed to provide an enhanced digital experience to ensure that both synchronous and asynchronous learners could engage with meaningful teaching and learning. Second, it was paramount that the district followed all safety protocols around COVID-19 to ensure the safety of all students and staff. Third, we needed to provide multiple channels of communication to our families, staff, and the community to ensure that everyone was aware of our pandemic-generated measures.

Our Improvement goals emphasized the following: safety; teaching and learning; improving the budget process; increasing communication; and social justice. In terms of teaching and learning, we focused on the implementation of curriculum, instruction, and assessment that demonstrates best practices for synchronous as well as asynchronous teaching and learning. This required staff to participate in professional learning related to grade appropriate digital tools and implementing those digital tools proficiently with students in a hybrid learning environment. We also used grade appropriate digital tools for developing and implementing formative and summative assessments of students learning in the hybrid environment. In terms of the budget, we focused on ensuring that our process was transparent and well communicated with our community. Additional streams of communication were created during the 202-2021 school year. All building principals sent out a weekly communication to all parents ensuring that parents were up-to-date on important curricular, instructional, and social activities organized by the school. Additionally, the Superintendent of Schools provided a monthly update that shared information on instructional matters and any steps taken to increase safety around COVID protocols. In addition, the Superintendent held monthly Town Hall meetings with all school staff to provide updates on COVID protocols and responsibilities.

Tier 2 and Tier-3 interventions were supported most directly by the school's early intervention team led by the school-based early intervention team chair or the building administrator. The teams interacted the best they could with both synchronous and asynchronous learners to ensure that all students received needed supports. We implemented an online credit recovery system for our high school students given the increased challenges with asynchronous learning.

The district's parent and community outreach activities continued to be extensive and varied. Given the pandemic, we needed to pivot to online interactions with parents. Back to school nights, parent conferences, and PPTs all moved to a digital environment. The Superintendent of Schools continued to meet weekly with the Parent-Teacher Association Council to discuss opportunities to collaborate, share, and ensure that all students benefited from the partnership. The Parent-Teacher associations continue to be actively involved in the betterment of their children and their education. They created many situations that allowed students to interact in a variety of ways using a digital platform. Our Board of Education meetings were streamed online via Zoom where approximately 2000 visitors joined the broadcast. These meetings continued to be streamed even as the BOE met in-person.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Trumbull Public Schools engaged in many activities designed to reduce racial, ethnic and economic isolation. The most significant of our work was the development of our District Equity Leadership Team (DELT). Specifically, we identified experts to support our work, a broad range of committee members from the school community, and began to meet throughout the school year. Additionally, we continued to participate in the open Choice program with Bridgeport Public Schools. At two secondary schools, new student groups (Shades Clubs) were formed. These student clubs provided all students the opportunity to discuss diversity, equity, and inclusion. Trumbull Public Schools also continues to offer a curriculum that exposes students to diverse perspectives and voices within our community. While most courses interweave recognition within their curriculum, Trumbull also provides the space and place to highlight specific perspectives as well. For example, at the high school level, our teachers volunteered to pilot the new state mandated course African American/Black and Puerto Rican/Latino Studies. Our teams attended statewide training and are offering the pilot course in 2021-22. They also reinstituted English courses such as African American Literature and Women in Literature. At the middle school level, students were not only able to explore themes of respect for differences in novels and history, but at Madison Middle School, students started their own student-initiated campaign called "Start with Hello." This campaign aimed to make sure students look for friends that might be struggling and show understanding of others' perspectives.

At the elementary level, our teachers and principals used books such as I Am Enough which depicts the main character interacting with children of different perspectives and appreciating themselves to recognize, celebrate, and teach respect for diversity. From first grade inquiry about heroes of color to fourth grade explorations of heroic women and people of color-- within the curriculum, students used digital resources, guest speakers, and digital field trips to investigate and make conclusions that led to deeper understanding.

Equitable Allocation of Resources among District Schools

The Trumbull Public Schools is committed to allocating resources in an equitable manner. The Board of Education goals drive the district and school improvement plans. These plans drive the budget development process and ensure that student needs are the driving force in the process. Each cost center is required to use a zero-based budgeting process to develop and then defend its budget. The district leadership team reviews data from the schools in order to allocate resources to avoid potential inequities. As the district developed its uses for ESSER grants, we employed these same techniques so that each school would receive what it needed based on student performance data. During the budget development process, our district-level team was instrumental in identifying budget priorities. Through an analysis of student outcomes, we were able to identify students and schools with additional needs and to identify opportunities to flexibly use our current resources. We also worked closely with our PTA's to ensure that they understood the policies around raising and expending funds. Finally, we also provided students waivers to participate in pay-to-participate activities.
