Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³ Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴ Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Bloomfield School District

Narratives

School District Improvement Plans and Parental Outreach Activities

The 2021-2024 Bloomfield Public Schools District Plan of Excellence, authored in close partnership with community stakeholders and district personnel, and adopted by the Bloomfield Board of Education, identifies four district priorities: (1) Holistic Accountability; (2) Rigorous Curriculum, Instruction, & Assessment; (3) Positive School Climate; and (4) Family & Community Engagement.

In addition to the district's talented staff, national and local experts are recruited to provide and guide professional development (PD) opportunities. Comprehensive professional development has addressed social emotional well-being, improving technology skills, and developing culturally relevant teaching practices aligned to the Common Core. Our ongoing work to raise social awareness has invigorated community-wide conversations and partnerships to promote equity, anti-racism, and social and emotional learning.

Instructional leaders have also received job-embedded PD to align their work with the newly adopted Portrait of a Graduate. This ensures students are critical thinkers, communicators, problem solvers, and adaptable to succeed in the 21st Century global economy. Families, students, staff and community members are also vitally important to this work. These key stakeholders provide a valuable voice on our Portrait of a Graduate Design Team, which worked throughout the year to develop the District's 2021-2024 Portrait of a Graduate Strategic Plan. Through this initiative, students have been able to intern at medical facilities as many students identified this industry as a career pathway.

School attendance and engagement throughout the COVID-19 pandemic has taken on a renewed focus. As attendance issues arise, we engaged families and staff to resolve problems, while continuing to build positive relationships with students. Our District Coordinator of Extended Learning and Family Community Engagement has worked closely with our families to gather input on ways to increase outreach and about relevant information in our schools. The Coordinator arranged multiple listening tours at each of our schools and developed a more robust social media presence in the community. Families also participate in focus groups to identify potential programs and practices that nurture the whole child. Informational meetings highlighting the district's progress are conducted annually with various PTO, family, community and business groups.

The district's Pre K through grade 12 programs and initiatives are influenced by research-based practices, as they relate to curriculum, instruction, assessment, and student and family engagement. Bloomfield implements benchmark testing for students in grades K through 12 three times each year to inform classroom practices and its alignment to student mastery of learning standards. The district also further integrated our Scientific Research Based Intervention program to adjust teaching to meet the needs of all students. A new Talented and Gifted program was implemented to serve students in grades 4 through 8.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Bloomfield Public School District prepares students with 21st century skills for a globally engaged future.

Located close to Hartford, and in driving distance to New York and Boston, opportunities abound to experience and appreciate societal diversity. Bloomfield's proximity to Hartford invites participation in inter-district cultural activities with students from many communities through various partnerships. Our two magnet schools reduce racial and economic isolation for Bloomfield students by attracting area students from diverse racial, ethnic, and economic backgrounds. The Global Experience Magnet School (GEMS), serving students in grades 6 to 12, nurtures relationships between GEMS students and peers in China, Africa, Ireland, South America, and France. The Wintonbury Early Childhood Magnet School (Pre-K) offers a full day program for children three to four years old from Bloomfield and surrounding communities. In partnership with Bloomfield's Auer Farm, curriculum and instruction are linked to authentic, hands-on science exploration. Bloomfield also participates in a number of Inter-district Cooperative Grant programs.

The Bloomfield Board of Education supports activities designed to educate our learning community about cultures and customs throughout the world, including Caribbean and Latin American cultures. The district hosts student summer enrichment programs, extended day learning opportunities, and an alternative high school program. The curriculum integrates resources and experiences drawn from the rich heritage of our students, including native speakers of 12 languages. The district partners with the Hartford Foundation for Public Giving and the Hartford Boys' and Girls' Club, extending the school day for elementary students and expanding cultural awareness through STEAM (Science, Technology, Engineering, Arts, Math) studies.

This past year, the district continued its recognition celebration of the 100th anniversary of the Harlem Renaissance by celebrating the culture, music, art, and history from the time period. Invitations were extended to the greater Bloomfield community to participate in all virtual events. Our teachers continued writing curriculum to align with culturally responsive teaching practices.

Equitable Allocation of Resources among District Schools

The Bloomfield Board of Education builds its operating budget based on the following six steps: (1) Align all programs, resources, and staffing to the vision and priorities of the District Accountability Plan; (2) Each principal, director and cost center manager builds a budget with a team; (3) School principals invite families to provide input; (4) The school budgets align to the District Plan of Excellence as well as each school's School Plan of Excellence; (5) Each building level budget is reviewed by the Superintendent of Schools and other central office staff to ensure equitable resource allocation, while addressing needs unique to each school; (6) and public meetings and hearings are held to promote public awareness and discussion of the proposed budget.
