Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Booker T. Washington Academy works hard to provide a supportive learning environment for all scholars. As a result of challenges with learning loss due to COVID, we have implemented a plan for recovery and accelerated learning. Through staff and parent surveys, virtual town halls, and focus groups we consistently strive to strengthen our community of learning to facilitate a rigorous academic program where each student realizes their potential.

We have identified four priorities for the coming year:

1. Equity and access for all students at BTWA with a priority on addressing learning loss.
2. Direct engagement with families and community .
3. Providing behavioral and mental health services delivered in person or via remote/ telehealth access for social and emotional support for students and staff.
4. Maintain and upgrade access to technology and connectivity for the long term to effectively maximize student learning.

In an effort to achieve these goals, we believe parents and community members authentically engaged as partners with our school are crucial to our scholars' success. We use autonomy and orientation towards innovation to center and uplift the assets and needs of our families. We improve the capacity of staff to engage in high-impact family engagement activities and strategies. We also engage parents monthly in workshops geared towards buttressing their understanding of emotional learning and empowering them to support student academic learning at home. And finally, we encourage parents to engage as members of the Parent Teacher Organization (PTO) and also participate in focus group discussions related to all school leadership hiring.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Booker T. Washington Academy ensures that all adults have high expectations for all learners and leverages the Courageous Conversation about Race protocol to assist with the identification of teachers' biases. We encourage our teachers to center student identity in the classroom and to support the development of their racial and ethnic pride. These efforts are designed to yield an increase in racial and ethnic pride, a sense of belonging, increased interest in learning, and ultimately improved academic performance. We are continuously building upon a bank of evidence-based culturally responsive instructional strategies, reflective of BTWA's demographics.

Additionally, BTWA continues to recruit African American and Hispanic teachers. This effort remains a top priority as we attempt to increase our scholars' access to teaching candidates that share a similar background and culture. In an effort to reduce racial, ethnic, and economic isolation, we established the following goals:

1. Attract, recruit and retain qualified teachers of color to fill teacher openings at the school.
2. Hire qualified and appropriately, degreed candidates of color, to fill the assistant teacher and resident teacher openings.

To accomplish our goals, we have adopted the following strategies for increasing access to teachers of color:

-Partnership with the Educate Me Foundation. Educate Me (EM) is a non-profit organization determined to increase the number of men and women of color in the field of education. EM supports and provides professional development services throughout the scholars' college careers, and assists with placement into schools seeking to hire racial, ethnic, and linguistically diverse teachers.

-Partnership with Relay Graduate School of Education- An alternative certification program for candidates that are degreed and demonstrate the interest and capacity to teach.

-Teach for America- BTWA partnership with TFA allows for teachers to be hired as resident teachers for the first year and as self-contained lead classroom teachers in year two.

Equitable Allocation of Resources among District Schools

Booker T. Washington Academy is a single site district, and as a result, does not allocate resources across multiple schools.
