Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The 2020-2021 school year was challenging on many levels. Our special education teachers worked both in school and remotely to ensure students received the special education hours to which they were entitled.

Approximately 50% of our students opted for remote learning during the 2020-2021 school year. This choice proved particularly difficult for our youngest students especially if parents were working and not at home to provide support while the child was online. The Director of Student Culture and Family Engagement and her team reached out regularly to engage students in on-line learning. We utilized our staff to work with small groups of students when they were remote believing that students were most likely to be engaged if they were working regularly with a teacher in a small group setting. Meals were provided to remote students many of which were delivered daily to families unable to come to the school for pickup.

During the 2020-2021 school year the staff met regularly with a DEI consultant to develop understanding and skills in working with a diverse student/family community. The consultant also lead a virtual meeting for families.

During the year we held several virtual Town Hall Meetings and were able to discuss the issues that we faced with schooling during a pandemic.

Parents were faced with working regularly at home with their children on learning activities during 2020-2021. The school supplied materials, technology, and programming to parents and teachers and staff were always available to discuss learning issues with parents which included four virtual scheduled meetings during the year.

Parents are represented on the Board of Directors.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Brass City Charter School is a charter school that by design aims to reduce racial, ethnic, and economic isolation. The school admits students from the City of Waterbury and its demographics mirror those of the City.

Our goal is to increase our number of teachers of color which we continue to do. For the 2020-2021 school year, 25% of our classroom teachers were teachers of color and 81% of assistant teachers were people of color.

Due to Covid, many of our usual activities beyond the scope of the curriculum were not held as no-one was allowed in our building apart from students and staff.
