Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Clinton School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Clinton Public Schools is committed to unifying efforts to ensure continuity of learning experiences and maintain high expectations for students. The framework for this effort is rooted in the district's mission, strategic priorities, and annual goal development. The priorities and goals support the areas of academic achievement, personalizing learning, healthy and supportive school communities, clear communication, and effective resource utilization.

Special education services have seen growth in the development of core on-site programs to meet the needs of students in the district. Special education teachers and paraeducators supported specialized instruction in-person, and focused on ensuring that the required and necessary services were provided to our students. Staff participated in training in prioritizing standards, structured literacy, technology, and social-emotional wellness.

Re-engaging students in our school settings was a primary goal and included personal outreach, transitional supports, and frequent monitoring of student attendance. Supports for students and families were tailored for individual circumstances in an effort to reduce chronic absenteeism and truancy. On site counseling and increased access to clinical mental health supports were utilized to successfully support and re-engage students academically and socially in our schools.

Communication to all stakeholders was accomplished through clear and regular updates to parents regarding school safety measures and changes to COVID-19 school protocols throughout the year. The district utilized the school website, virtual and in-person meetings, recorded video communications, and electronic messaging to keep staff and parents informed throughout the year. The district elicited stakeholder feedback through in-person meetings and surveys throughout the year in order to improve processes, gather information about student needs, and to create a new strategic plan.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Clinton Public Schools benefits from a community that is expanding in its racial, ethnic, and economic diversity. The growing number of English Learners in the district has prompted a shift in programming to meet this need. Staffing has been added to support students learning English, district communications are sent in multiple languages, and translation services are provided through technology and native speakers. Clinton students continue to have an opportunity to participate in the inter-district magnet schools in New Haven, the Sound School in New Haven, and the Marine Science Magnet School in Groton. Curriculum development is ongoing to ensure that multicultural and inclusive perspectives are embedded in the student experience. A Social Justice Club was formed at the high school and developed various activities for students to engage in social justice topics and causes. The district responded to student and family economic needs through collective giving, expanding opportunities for breakfast and lunch for all students, and through connecting families to community services and supports.

Equitable Allocation of Resources among District Schools

The district is committed to ensuring that all schools receive the resources necessary to effectively implement educational programming and attain its objectives. Enhancing instructional practice, providing high-quality instructional materials, ensuring balanced and quality curricular offerings, supporting professional learning for staff, and maintaining core programs are the priorities for decisions about resource allocation. The district leadership works collaboratively with town leadership to build understanding and support for district budget requests. The Board and administration work diligently to contain costs and reduce expenses in budget areas such as transportation, utilities, health insurance, and special education. Grant funding has been obtained and thoughtfully allocated to meet the emergent needs of the district. The budget development process is open and transparent allowing for public participation and input. In addition, the district annually submits a ten-year plan for capital improvements and has made decisions based on its evaluation of facilities and enrollment in order to ensure budgets and facilities can continue to appropriately support student needs.
