Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

During the 2021-2022 school year, Colchester Public Schools (CPS) responded to the continued impacts caused by the pandemic, as well as returning to its mission to "create innovative thinkers for a dynamic world." Colchester schools have developed school improvement plans that are aligned with District goals focusing on increasing academic growth expectations, supporting students to solve real-world problems, and increasing capacity to respond to individual student needs. The schools work with the District and their school leadership teams to engage in 90-day continuous improvement cycles that address both academic and social and emotional challenges facing students. CPS is also embarking on a plan to provide to special education and related service staff Quality Training in the writing of Individualized Education Plans (IEPs). The intent of this training is to ensure all educators responsible for implementing specialized programs will be trained in the best practice of writing and implementing IEPs. Colchester continues to develop programming that includes parents and caregivers, and provides them with opportunities to support their student(s) at home. Colchester has active PTOs at all four buildings, gathers input from parents on the design and implementation of curriculum, and partners with other town agencies to provide summer learning opportunities for parents while students are read to during the summer months.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The Colchester Board of Education recently worked with school stakeholders and the Town of Colchester to develop a Diversity, Equity, and Inclusion Committee. The Committee's mission is to "serve the students of Colchester and enhance our teaching practices, resources, and curriculum to be reflective of all students no matter their race, culture, gender identity, sexual orientation, or disability to ensure educational equity." Our leadership staff at Bacon Academy collaborated with National Conference for Community & Justice to provide staff with the most up to date training covering areas such as Foundational Work on 9 Identities, Oppression, Diversity and Inclusion, working with a BIPOC Affinity group, as well as learning how to develop a model for how to respond to oppression, bias, and harmful incidents district wide.

As a part of working with the BIPOC Affinity Group, students were able to work with staff to identify challenges as well as strengths at Bacon Academy. The work of these groups will help mold change in areas the culture of Bacon Academy can grow from.

This nascent committee led the systemic changes needed in the District to make the school community a better place for all students and families CPS has also formulated a Social and Emotional Learning team whose purpose is to support faculty in adopting strategies to support the development of a community of learners. CPS is also continuing its partnership with Norwich Public Schools to accept students, via lottery, to attend Bacon Academy.

Each school also offers student extra-curricular clubs designed to reduce bias, including the Gay Straight Alliance, the Peer Advocacy League, and Unified Sports and Arts. At WJJMS, students have engaged in a "global classroom" experience by connecting with other students from around the world during academic periods to understand their respective life experiences. Similarly, JJIS has hosted a virtual Day of Service that explored and responded to the needs of children around the world

Equitable Allocation of Resources among District Schools

The development of the budget is a collaborative process that begins with administrators and directors working with their respective leadership teams to identify needs in alignment with the mission of CPS. The administration then works with the central office team to balance resources across schools to develop a final proposal that is presented by the Superintendent to the Board of Education. Colchester Public Schools works diligently with the State of Connecticut to secure grant funding to support our community with the School Readiness program at both Colchester Elementary School Pre-School as well as CASTLE. This program helps to support our youngest students with not only educational needs to prepare them for kindergarten but also to help support their social and emotional needs. With the addition of stimulus funding from the federal government, CPS administration prioritized the areas of greatest student need and allocated funding to support actions in response to those needs. The administration then solicited input from the Board of Education and community members on the planned use of funds. Input from stakeholders was considered and implemented where appropriate.
