Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

School District Improvement Plans and Parental Outreach Activities

The Connecticut Technical Educational and Career System (CTECS) continues to make progress towards the four goals of the strategic plan to increase partnerships with business and community leaders; implement a career ready curricula aligned with credentialing standards which offers 9-14 career pathways; respond to workforce demands through innovative programs; and invest in the development of teachers and administrators through quality professional learning activities. School improvement plans include alignment with the district's Student Learning Objectives which designate targeted improvements in school climate, a decrease in chronic absenteeism, reading, mathematics and workplace readiness and tiered intervention programming for regular education, ELL, and special education students. A goal for increasing parent participation is a requirement of the school plan and is reflected in the teacher and administrator evaluation process. The district has adopted the Comprehensive School Climate inventory developed by the National School Climate Center which incorporates a student, teacher and parent survey. A detailed report with recommended strategies is incorporated into a plan of action to increase parent involvement and to develop parent target goals for the school year.

The CTECS plan supports a growth model, and a digital platform provides an effective way to monitor progress for improvement and proficiency in teaching and learning. Schools are required to articulate a theory of action with strategies and target benchmarks for demonstrating college readiness in reading and math. The strategic plan outlines specific metrics for students to demonstrate work preparedness through CTE workplace competencies which require demonstrated proficiency in each skill by the end of each grade. Student performance through demonstration and authentic experiences, including production work and Work-Based Learning, in these skill areas are compiled into a senior capstone. A continuous school improvement cycle with completion targets ensures fidelity in the school improvement implementation process. Plans are monitored through mid-year administrator conferences, site visitations and artifact review. The district monitors EL and special education programs to ensure adherence to federal and state guidelines. After-school and summer programming for incoming ninth-graders at Title I schools provide opportunities for instructional time otherwise not available for remedial supports and enrichment activities. Restructured professional development using a regional model builds leadership capacity and allows for more individualized professional learning opportunities using technology applications and webinar trainings.

The CTECS has a comprehensive Family Engagement model involving Family Parent Engagement teams. The Family Engagement Centers offer workshops on various topics such as assisting students with homework and "getting involved in your child's school and career technology program." Students and families have the opportunity to engage in multiple community events throughout t

Efforts to Reduce Racial, Ethnic and Economic Isolation

The District is inherently diverse in that recruitment occurs in all counties of the state and in a variety of demographic regions: urban, suburban, rural. The District provides in depth professional development to address the CCS and to align all curricula to integrate differentiated instruction to meet the needs of diverse socioeconomic and ethnic groups. Course materials are examined on an on-going basis to ensure that racial, gender, ethnic, and economic diversity are represented across all curricula. School-based family engagement efforts enhance a sense of belonging, increase student attendance, and provide a sense of community. Events are scheduled at various times throughout the day and week, including weekends, to maximize family participation. School climate committees develop activities to include all stakeholders providing opportunities for students, families, staff and community to have a voice in decisions promoting safe and respectful schools. The District has initiated a plan to infuse all aspects of the school curricula and environment with social emotional and restorative practices. All schools in the District provide free breakfast and lunch to all students. The District has developed an alternative plan to ensure that all students needing additional financial support are provided with the tools and materials needed to access their trade technologies and educational opportunities. Significant resources are mobilized throughout the district in response to crisis related needs for all students. The instructional model provides opportunities for English Learner (EL) students to acquire language proficiency. MY Access! are programs which help English Learner students become more proficient in English. CTECS teacher recruitment reaches out to minority teachers and administrators to better reflect the student populations in the district. The use of online programs provides data to inform tiered instructional and behavioral strategies to support English Learner students and students with special needs. Literacy staff includes content EL, special education and reading teachers who provide targeted practice and Multi-Tiered Systems of Supports (MTSS).

Equitable Allocation of Resources among District Schools

Overall operating costs and resulting staffing levels vary depending on the age of the building, square footage and capacity of the school building, number of secondary and adult trade/technology programs offered and the number of students enrolled. Budgets for trade and academic supplies are allocated directly to schools on a per pupil basis. Funding for replacement of trade and academic equipment requires the approval of the State Bond Commission and is subject to the economic constraints of the State of the Connecticut.
