Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Cornwall Consolidated School (CCS) is a small K-8 school. The 2021-2022 school year was framed around the COVID 19 pandemic and ensured that students felt safe, emotionally as well as physically, in order for them to access learning at the highest level possible during this difficult period of time.

One important goal of our School Improvement Plan is to promote social and emotional well being for all students. Staff and students participate in daily morning meetings so that students have the opportunity to voice concerns, engage with issues, and actively co-create a positive and respectful learning environment. The whole school focus on Habits of Mind (HOM) provides opportunities for students to learn and apply important life skills throughout the challenges of their day such as persisting, managing impulsivity, and listening with understanding and empathy. Strong relationships develop between staff and students which ensures that students' needs are met when concerns arise. In addition, there is strong home to school communication. A weekly Electronic News is sent to parents as well as members of the community highlighting what is occurring at CCS in regards to HOM, curriculum, and suggestions for home activities. Families who do not have access to the internet can request to receive hardcopies weekly from the office. Weekly photos are also shared in the E-News which were especially important in a year when parents were unable to come into the school themselves. Teachers communicate directly with parents in a variety of ways such as phone, email, and virtual meets. We believe that students are most successful when family, school, and community work together. Community members meet with students to read to them and share knowledge on topics being studied.

The other goal in our School Improvement plan focuses on improving student achievement as measured by multiple sources. Teachers analyze formative and summative assessments to identify students who are meeting standards or students who may need reteaching. Teachers and staff participate in regular ongoing professional learning opportunities both locally and at the Regional level to improve their instructional practice and support colleagues in doing so as well. Parents and students in grades 5-8 are able to see current grades via PowerSchool. Student Involved Conferences in the fall and Student Led Conferences in the spring provide a student Led Conferences in the fall and spring provide a time to review student progress and build skills for student ownership of learning. Our Multi-Tiered System of Supports (MTSS) Team meets weekly to review a variety of student data; academic, behaviorally, and attendance; and ensure that targeted support is provided to students if needed. Parents of students receiving intervention are informed immediately and updated on their child's progress or lack thereof and if further assessments are recommended. Truancy is not a prevalent problem but parent meetings are held when students reach 10 absences to offer support. Our efforts to improve our already strong special education program have included professional development to regular education staff to understand and contribute to the PPT process.

Efforts to Reduce Racial, Ethnic and Economic Isolation

At Cornwall Consolidated School (CCS), we focus on equity and social justice. This is reflected in our policies and our practices. It is important that teachers challenge students to think openly and reflect about people, places, and cultures with which they are less familiar. Morning Meeting time allows students to engage in equity and social justice discussions so that they can hear other perspectives, learn about the world around them and think about how they can contribute positively to it by their actions. This often leads to student led projects and fundraisers to support local and world humanitarian organizations. Students are also exposed to diverse cultures from around the world through literature, foreign language, the Arts and Social Studies. We are currently researching and investing in more multicultural literature that enables students to gain a deeper understanding of both their own culture and those of others.

Beyond curriculum and instruction, providing an inclusive, accepting environment that is a safe place for all is a major priority at CCS. We have a heavy focus on building a positive school climate and culture. The whole school focus on Habits of Mind (HOM) provides opportunities for students to learn and apply important life skills throughout the challenges of their day. Weekly quotes related to the HOM life skills are shared daily during morning announcements and used as a springboard for discussions during daily Morning Meetings. In addition, our School Guidance Counselor provides Social Emotional Learning (SEL) to all students throughout the year. Second Step, a research-based program leading SEL elementary school curriculum, is one vehicle used with the primary grades which is used to teach children about empathy and effective communication skills. Middle Schoolers participate in various programs to learn about healthy boundaries and mental health delivered by our school counselor as well as community health organizations.

We work to bring students into direct contact with people of different backgrounds which had to occur virtually this year due to pandemic restrictions as opposed to field trips. In the past, we have had a variety of inter-district events and plan to do so again in the future when it is safe to do so.

Equitable Allocation of Resources among District Schools

Cornwall Consolidated School is a district of one school. We are a member of the Region One School District which is comprised of six K-8 schools and one regional high school. Therefore equitable allocation of resources among district schools is not an issue. We have a supporting Board of Finance and a supportive citizenry. Therefore, financial constraints have not prevented us from meeting the needs of our students.
