Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

East Haddam Public Schools offers our students an environment and experiences that are both deep and meaningful. The tenets of the EHPS plans are communicated to the community in the form of a strategic plan that is available on the website. Parents are a key part of this learning as students share their insights and make connections to their experiences at home with their learning in the classroom.

The instructional staff is engaged in a systematic competency-based curriculum development process involving students, teachers, parents, and administrators in the process. The 21-22 year continued a focus on transferable skills competencies as we worked through the challenges of teaching in a pandemic.

East Haddam Public Schools continues to expand our services for students with special needs that benefit from transition services when they complete their academic program. This transition program supports our students to have .

Surveys were administered to students, parents and teachers to gather input on the attitudes and successes of efforts in the areas of student achievement, school climate, and extracurricular opportunities. The district adheres to the curriculum development and established revision cycle and is up to date on aligned with current state and national standards. Curriculum alignment with district competencies ensures our students are learning that which is most important and aligned with NGSS, Curriculum Standards and the Common Core of Teaching. The SRBI model of identification and support was revised at the secondary schools to meet the needs of the individual students.

Efforts to Reduce Racial, Ethnic and Economic Isolation

East Haddam acknowledges its obligation to provide opportunities for its students that will lead to reducing racial, ethnic, and economic isolation. Distance learning and on-line opportunities through the district's participation in the Virtual High School consortium have provided additional multi-cultural experiences for our students. The East Haddam Board of Education supports the district-wide statement on diversity, which has influenced the district's decisions regarding curriculum and instruction. Each school staff is learning how to create inclusive environments in the school by working directly with SERC and Stetson Associates over the past year. The schools completed a self-assessment of the inclusivity of our schools and is working to continuously improve our inclusivity of our students.

The elementary school world language program starts in kindergarten. The curriculum of the class for all students K-3 is focused on world language and culture. The classes are a wonderful opportunity for our students to learn about many parts of the world and the people that live in them. The elementary school PTO coordinates cultural activities and authors' visits to enrich curricular components.

The recently added K-8 STEM program encourages students to work in small group of students with varying abilities. Students are learning how to work with a group and be part of a problem solving team.

Nathan Hale-Ray Middle School remains committed to providing opportunities to reduce racial, ethnic, and economic isolation. The middle school science program successfully applied for a grant that enabled our students to have science program facilitated by the project oceanology program with students from schools in urban settings. The students enjoyed these opportunities to learn about science up close and personal and to learn alongside students from very different backgrounds.

The Little Noises Spirit Club, YES Club, Multi-cultural Club and Straight from the Heart are just a few of the opportunities our students have to engage in discourse. Their activities included visiting urban soup kitchens and planning multi-cultural events with other schools. The high school encourages participation in foreign exchange programs and has hosted five exchange students.

Equitable Allocation of Resources among District Schools

The East Haddam School District is comprised of three schools with grades distributed as follows: a PK-3 elementary school, a 4-8 middle school, and a 9-12 high school. Budgets for each school are developed by the school Principal with significant input from their respective staffs. The building budgets are reviewed by the Superintendent and the Director of Finance for compliance with the budget parameters. Budget goals for each school, along with the goals for the district, determine the allocation of our financial resources. The goals of the district are embodied in each school's School Improvement Plan and in the District's Strategic Plan. The budget is developed to support the educational needs of all East Haddam students so as to ensure that equal educational opportunity remains as a primary district focus.
