Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

Social and emotional learning and support; academic achievement; and strengthening student, family, and community relationships were among the focal points of the Special Education and Pupil Services Department for the 2021-22 school year. The Eagle Academy, our specialized program for students in grades K-12 with social, emotional, and behavioral needs, marked its third successful year of service to students from Enfield and nearby towns. Special education teachers and related service providers participated in professional learning with a focus on the new CT IEP. CREC provided in-service for teachers and specialists for the effective completion of present levels of academic and functional performance, meaningful impact statements, and progress monitoring. Speech and language pathologists completed professional learning for: Low tech AAC options and strategies in the classroom; a language-based approach to managing echolalia; practical treatment for students with social communication disorders; strengthening core vocabulary; and childhood apraxia. Enfield Transitional Learning Program provided opportunities for students ages 18-22 from Enfield and surrounding towns to engage in vocational learning experiences in the community. Special education preschool teachers completed professional learning around equity, diversity, and inclusion. They collaborated with Head Start and STEAM preschool programs to explore best practices in special education. Secondary level SOAR teachers and related service providers collaborated to ensure that all high school students in the program graduated on time. SOAR students participated in Acts of Kindness in the community and transportation programs. Social workers completed professional learning on supports and interventions for students experiencing anxiety and depression. All school counselors participated in professional learning focused on gender identity. Elementary counselors provided weekly SEL lessons. Middle school counselors worked with students to reflect on academic, career, and social emotional goals. High school counselors increased mentoring lessons for students with a focus on goal setting, communication, understanding graduation requirements, transcripts, and Naviance activities. High school counselors participated in the Governor's FAFSA Challenge to increase student participation in college bound programs. Rachel's Challenge Clubs continued within the schools to promote community and heal the school climate after the pandemic. Attendance intervention teams met at all levels to find ways to reach our most at-risk students. Elementary schools continued implementing the PBIS (Positive Behavior and Intervention Supports) program. 6 of our buildings participated in Cohort 1 of the State's SEL initiative using Aperture. Enfield Schools partnered with KITE to develop a virtual kindergarten registration plan. First families were notified of a drive through date to pick up registration information and materials. A video was posted for 3 weeks for families to view concluding with an evening Q&A. Social-Emotional Learning and effects of trauma with the Executive Director of Gesell Institute at Yale continued with a series of virtual evening events for parents to focus on developing a plan for meaningful family engagement. The Parent Leadership Academy was held again this year after a 2-year absence.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The District Safe School Climate Committee continuously monitors and improves our Safe School Climate Plan, Bullying Prevention, and Intervention Policy. The district continued its work with the Rachel's Challenge Program, which teaches students they have the power to make permanent and positive cultural change, even though some of their efforts were modified to meet the pandemic restrictions. This program places emphasis on starting a chain reaction of kindness, compassion, and tolerance throughout each school, which can then be brought to the entire community. At the high school level, student run organization carried out multiple activities aimed at building relationships both in the school and community. One example this year was to give self-care bags to each high school student upon their return to full-time, in-person learning. High school students were unable this year to travel to elementary schools as mentors to teach the Rachel's Challenge curriculum and begin forming lasting bonds with younger students but look to start that up again next year. High School Teen Leadership courses taught hundreds of students' valuable social skills such as respect, kindness, acceptance, tolerance, relationship building, positive decision making, and effective communication. Elementary schools implemented the PBIS (Positive Behavior Interventions and Supports) program to create welcoming and positive school climate throughout the district. The district infuses academic programs with opportunities for students to experience diversity through a variety of cultural programs that promote understanding and appreciation for the people of our world through classroom curricular projects, cultural performances, school-wide assemblies, the school-wide respect bucket-filler program and field trips. Parents and community members are encouraged to visit our schools to share different cultures. Participation in the Open Choice continued to grow. Enfield High worked with an outside facilitator on the topics of diversity and equity and the Equity Team continued to move this work forward. Spanish PEP (People Empowering People) was brought back. In January 2022, the district hired a Director of Educational Equity to align the district work to our vision and move these efforts forward.

Equitable Allocation of Resources among District Schools

The Enfield Board of Education equally distributes all available funds so that each school in the district receives its fair share of allocated resources to support present and proposed educational programs, staffing, supplies, materials, equipment, textbooks, and athletics as per our TITLE IX Board Policy. A joint budget feedback session with the community was held by the Town Council and Board of Education in order to ascertain community priorities for budget preparation. Administrators, teachers and department chairperson are included in the budget preparation process and each has an equal opportunity to present school and program needs considered in the annual budget request. Supplies and textbooks are allocated on a per pupil basis. New programs and new textbook adoptions receive separate line-item recognition in the budget. New staffing positions are determined by analyzing pupil/teacher ratios, classroom enrollments and school matrix reports. School buildings and facilities share budgeted funds for maintenance, repair, and renovation. Larger facility projects like new roofs, major renovations, etc. are included in the five-year Capital Improvements Budget Plan.
