Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Narratives

School District Improvement Plans and Parental Outreach Activities

The Goodwin University Magnet School System's (GUMSS) district development plan for 2022-2025 consists of five focus areas, Engagement, Teaching and Learning, Partnerships, Resources, and Innovation. Within the areas of engagement and teaching and learning, data teams at each school review all aspects of student learning and how they intersect with their social and emotional needs. Each school's intervention team consists of the school social worker, the school psychologist, the grade level administrator, the guidance counselor, and the behavior intervention specialist. These teams work to assess student needs running from academics to truancy. The teams meet bi-monthly to discuss strategies and progress of interventions.

Key to the team's success in helping scholars is family engagement. The families of the students are part of the process from the beginning. They are key members of the planning and implementation of plans. The lasting partnerships established with families enable change to occur and improvement to be realized.

During the 2022-2023 school year, intervention teams across all schools will receive training from the Center for Great Expectations in the Attuned School Approach to create emotionally safe, well-regulated, nurturing and attuned educational environments. The Attuned School Approach (ASA) creates a culture wherein positive attributes are identified and nurtured, where brain function is optimized through both awareness of one's emotional state and the ability to regulate it effectively. The learning community is one of mutual respect and support, where a growth mindset infuses a "can-do" energy to maximize achievement and satisfaction.

For the 2022-2023 school year, there are eleven days of professional development on this approach and its implementation. Staff will have workshops, technical assistance sessions, and on-site observations and coaching from the consultant. In addition, parent events are planned throughout the year highlighting this work and providing families resources to support the efforts of the schools. The goal is to assist parents in extending the work being done during the school day into the home.

In addition to the Center for Great Expectations initiative, all schools continue to conduct monthly parent engagement sessions, both in-person as well as virtually. Within all of this work, the Goodwin University Magnet School System (GUMSS) strives to provide valuable experiences for families within our schools. The goal is to establish strong connections that provide a safe and respectful space.

With LEARN, the Goodwin University Magnet School System (GUMSS) works collaboratively with families to address the needs of identified scholars. Offering a wide-range of special education services and resources, there is a focus on meeting students where they are and scaffolding support so they can meet with growth annually.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Vision Statement. All members of the Goodwin University Magnet School System are empowered to advocate for a just and sustainable world while developing competencies for future success within a transformative PreK-early college system.

Mission Statement. The Goodwin University Magnet School System breaks down barriers while celebrating the many talents within our community. Partnering with families, educators, and the community, we challenge our scholars to take ownership of their learning through authentic, innovative pathways.

As clearly identified in its vision and mission statements, the Goodwin University Magnet School System strives to provide an inclusive environment for all scholars, families and staff. As part of this, student agency is a focus at all levels. By empowering scholars to have a voice, they feel appreciated and valued. These experiences directly correlate to a positive and safe learning environment.

The Goodwin University Magnet School System (GUMSS) is part of the Sheff Magnet School System and is an important player in the mandatory desegregation plan under Sheff v. O' Neill. A longstanding school desegregation case against the State of Connecticut, Sheff seeks to address the extreme racial and economic segregation of students in the city of Hartford in relation to surrounding suburbs. The Goodwin University Magnet School System (GUMSS) prides itself in its work to serve this mission.

In the coming school year, a significant focus will be placed on diversity, equity, and inclusion work. Staff will participate in a series of on-going professional development opportunities. Scholars and families will also be encouraged to participate.

Equitable Allocation of Resources among District Schools

The budgeting process in the Goodwin University Magnet School System provides the opportunity for building and district leadership to collaborate on ensuring funding to meet the needs of scholars. A review of enrollment information is used to ensure appropriate class sizes. In addition, programs continue to be implemented and enhanced based on scholar, family, and staff feedback.

Coupled with school and district development planning, resources are also allocated based on identified areas of need and focus. Data such as student achievement and growth are essential components to this work. In addition, proactive planning in areas such as technology and maintenance allow for the system to maintain a high level of educational opportunity in safe learning environments.
