Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

¹ NAEP is often called the "Nation's Report Card." It is sponsored by the U.S. Department of Education. This table compares Connecticut's performance to that of national public school students. Performance standards for state assessments and NAEP are set independently. Therefore, one should not expect performance results to be the same across Smarter Balanced and NAEP. Instead, NAEP results are meant to complement other state assessment data. ²The Connecticut Physical Fitness Assessment (CPFA) is administered to students in Grades 4, 6, 8 and High School (HS). The health-related fitness scores gathered through the CPFA should be used to educate and motivate children and their families to increase physical activity and develop lifetime fitness habits.

³Only students assessed in all four areas are included in this calculation.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Hartford School District

Narratives

School District Improvement Plans and Parental Outreach Activities

SCHOOL IMPROVEMENT: The District Strategic Plan is the foundation of school improvement plans. School improvement plans align to our District Model of Excellence (DME), Strategic Plan, and Major Goals. School improvement focuses on forward planning, continuous improvement cycles, and coherence across district and school-based teams to increase student outcomes academically, socially and emotionally.

Principals and instructional leadership teams lead the school improvement process. Plans are developed based on multiple points of data such as achievement, attendance, climate, and behavior data as well as instructional and climate and culture walkthrough data. The goals of school improvement plans are to outline the professional learning necessary to build staff capacity, and identify high leverage strategies that accelerate student achievement. School improvement plans are monitored, updated and revised based on data cycles and student need.

FAMILY ENGAGEMENT: The District hosted Family Learning Sessions virtually this school year. Family Learning Sessions focused on the whole student. Sessions addressed topics related to Academics, Attendance, Climate, Engagement and Social Emotional Support, among others. The District also co-hosted sessions with community-based partner organizations that focused on how to navigate the school district and a wide range of other topics such as to mental health support for children and families, Title I Funds, Bullying and Title IX policies.

Each school has a Family and Community Service Support Provider (FCSSP) who hosted five workshops between September 2021 and June 2022 with parents. As of May 2022, FCSSPs have supported 166 workshops across the district. Workshops include Mental Health Support, Academic Support, Family Fun Nights, Open Houses, and Attendance, Climate and Engagement Workshops. FCSSPs conducted Home Visits throughout the year to promote consistent attendance, support families' needs and strengthen and build relationships. The district has conducted over 3,600 home visits this year.

SPECIAL EDUCATION: The District provides equitable educational opportunities for all students with disabilities (SWDs) across all schools. The district has revised the continuum of services to include the Multi-Tiered Systems of Supports (MTSS), which outlines specific interventions for students for both academic and behavioral needs. The continuum of services provides all students with opportunities to access and participate with their typical peers.

The long term goal is to ensure our students have the ability to access grade level curriculum, and as they move through programming, have the ability to graduate or access post-secondary programming to support their transition to adulthood and be active members in their community. Steps to ensure equitable access include: (1) Ensuring all students with disabilities have access to the core curriculum with appropriate supports and accommodations; (2) Ensure IEP's are written to identify strengths as well as growth areas; (3) include culturally-relevant instructional practices; (4) provide opportunities for all staff to collaborate and share meaningful discussions about student learning needs; (5) Continue to strengthen the MTSS process by investing in professional learning.

Efforts to Reduce Racial, Ethnic and Economic Isolation

The District is committed to ensuring our families are engaged and inspired by the school options we offered. Our school choices include specialized district schools and theme-based magnet schools; each offers a unique curriculum that prepares our students to be successful in and beyond school.

In 1996, the Connecticut Supreme Court ruled in *Sheff v O'Neill* that racial isolation in the state's schools denied students an "equal educational opportunity" and ordered the legislature to devise a solution (*Milo Sheff, et al. v William A. O'Neill, et al.*, 238 Conn. 1, 678A.2nd 1267 (Connecticut Superior Court 1996)). As such, Hartford families can select from 26 suburban public school districts through the Open Choice program, and 39 magnet school options in the Greater Hartford Region operated by educational providers including Hartford Public Schools, Capitol Region Education Council (CREC), Goodwin College, East Hartford Public Schools, and Bloomfield Public Schools.

Over the years, through the *Sheff v. O'Neill* stipulated agreement, HPS has increased the number of district-operated Magnet Schools to 18 as part of the HPS portfolio. The *Sheff* remedies have played an important role in creating quality, integrated educational opportunities that align with the overall district reform efforts "" District Model of Excellence "" to increase options and enable families to select quality schools where they live. This includes a focus on enrollment pathways for students and their families along with improved structures for teacher and staff collaboration. One example includes the co-location of schools such as:

- M.L. King Campus. - Martin Luther King, Jr. Social Justice Middle School (6-8) . - Breakthrough Magnet School-North (PK3-Grade 5).

Each year, HPS launches a communication campaign to inform families in the Greater Hartford Region of the available schools, with themed options such as Early College Experience, STEM/STEAM Schools, Performing Arts and Montessori. Steady progress has been made in ensuring that families are supported with the tools to understand the suite of school options and the pathways to access them.

Hartford School District

Equitable Allocation of Resources among District Schools

The District ensures strategic alignment of people, time and money in accordance with its District Model for Excellence (DME). Approximately 93% of the district's funding goes directly to the schools or centralized support for the schools.

The District fully implemented its Equity-Centered Budgeting process for the 2022-23 budget. In this model, each school is provided with a starter budget which funds the school administration, teachers, school and family support, counselors and student support. In addition, schools are provided supplemental funding based upon the concentration of particular student groups within the school (i.e. Multilingual/English learners, students with chronic absenteeism, students with special needs). Lastly, school administrators access discretionary funding for supplies, technology, athletics, etc. And finally, qualitative adjustments are then made where extenuating circumstances in a particular school may exist. By using this process, the District allocates resources to the schools and students where the greatest needs exist.
