Notes

Unless otherwise noted, all data are for 2021-22 and include all grades offered by the district.

In most tables, data are displayed only for the three major race/ethnicity categories. For additional race/ethnicity categories, please visit <https://edsight.ct.gov>

State totals are not displayed as they are not comparable to district totals.

Special Education tables reflect only students for whom the district is fiscally responsible.

* When an asterisk is displayed, data have been suppressed to safeguard student confidentiality. Complete data suppression guidelines are available at <https://tinyurl.com/SuppressionPolicy>

N/A is displayed when a category is not applicable for a district or school.

Performance and Accountability

District Performance Index (DPI)

A District Performance Index (DPI) is the average performance of students in a subject area (i.e., ELA, Mathematics or Science) on the state summative assessments. The DPI ranges from 0-100. A DPI is reported for all students tested in a district and for students in each individual student group. Connecticut's ultimate target for a DPI is 75.

³Students demonstrate postsecondary readiness through at least one of the following:

- SAT® - meets benchmark score on SAT, Revised SAT or Connecticut School Day SAT
- ACT® - meets benchmark score on 3 of 4 exams (benchmark score varies by subject)
- AP® - 3 or higher on any one AP® exam
- IB® - 4 or higher on any one IB® exam
- Earning three or more non-remedial college credits cumulatively during high school.

⁴Participation Rate equals the number of test-takers in 11th and 12th grade divided by the number of students enrolled in those grades, as a percentage.

Next Generation Accountability Results

Connecticut's Next Generation Accountability System is a broad set of 12 indicators that help tell the story of how well a district/school is preparing its students for success in college, careers, and life. It moves beyond test scores and graduation rates to provide a more holistic, multifactor perspective of district and school performance.

Killingly School District

Narratives

School District Improvement Plans and Parental Outreach Activities

Killingly Public Schools is guided by the following core values, Positive Relationships Matter, Adult and Student Empowerment Matters, Clear and High Expectations Matter, Continuous Improvement Matters, Shared Responsibility Matters, and Focused Collaboration Matters. This year we have worked with the Partners for Educational Leadership to devise our strategy to uphold these core values and bring our Profile of the Graduate to life. To date we have four stakeholder groups working on this work: 1) the administration team, 2) the PDEC team, 3) the student engagement steering committee and 4) the Attendance and Engagement Committee. These three groups have focused on what high quality instruction looks, sounds, and feels like in KPS. Through much discussion, activities, and research we have narrowed our focus to engagement. Next year our district will focus solely on engaging students in the content. Our student steering committee will guide our work. Additionally, we have an attendance outreach coordinator and a student engagement advisor to assist with our goal to engage students more in their learning, which in turn will increase attendance and academic outcomes. Our theory of action reads: Through a shared understanding and thoughtful rollout of high-quality instruction (engagement) students will demonstrate aspects of the Profile of a Graduate.

Killingly Public Schools continuously engages in activities and initiatives to involve parents in their student's education. Each school holds evening events, such as Family Nights, Curriculum Updates, Fitness Nights, and Recognition Nights. Three of our five schools have School Governance Councils where families take an active role in the planning and improvement of school programs. Additionally, schools engage families through electronic means via webpages, email, text messaging, social media, and automated phone services. The entire district has transitioned from individual support classrooms into the direction of a full-inclusion model. To help all students be successful in the regular education program, pyramids of intervention have been strategically developed in all buildings throughout the district. This year Killingly along with several other area schools organized a virtual parent session with area health care providers. These sessions mainly focused on social and emotional health. We are also planning an in-person Parent-Expo for the fall which will provide families with a multitude of seminars from how to help their child with homework to the importance of limiting screen time.

Efforts to Reduce Racial, Ethnic and Economic Isolation

Killingly Public Schools have provided many opportunities for teachers and students to gain increased awareness of diversity, greater sensitivity to differences, and personal experiences to connect cultures. The faculty and staff have made conscientious efforts to incorporate diversity in a community that has a limited diverse population. Additionally, Killingly incorporates many programs focused on building a community where all students feel safe and respected. These include: Club activities at KHS and KIS which have been designed to support inclusiveness, including an active GSA chapter. The students at KHS also have opportunity to participate and lead activities as members of the Social Justice Club. A partnership was also established between Killingly High School and the Anti-Defamation League to provide community learning through the "Names Can Really Hurt Us" program and "No Place for Hate" program. To ensure instructional and equitable responses to student behaviors, our middle school and high school faculty have participated in professional development on Restorative Practices which focus on improving peer-peer, adult-students, and adult-adult relationships. The elementary schools and middle school will continue to participate in responsive classroom to support all learners. Interested students from the Killingly Intermediate School participate in a unique one-on-one multicultural mentoring program, Kids & UConn Bridging Education (KUBE). The goals of the program are to reduce racial, ethnic and economic isolation and to help students achieve academic success in science, writing, and 21st-century skills. The UConn students consist of two program coordinators, ten group leaders, and approximately 75 mentors that meet monthly with the 75 middle school students in Storrs. Grant dollars continue to assist the district in providing opportunities for students to increase awareness of differences through inter-district activities and after-school programs. Additionally, all schools will be trained in the RULER program by next year.

Equitable Allocation of Resources among District Schools

Killingly Public Schools allocate resources to ensure equity and address needs each year. Annually, during the budget process, our building principal(s) and program directors work with staff and school site teams to create a financial plan for the following year. Our programs are allocated funds per teacher for instructional supplies. Separately, each department articulates their specific needs for additional instructional and equipment supplies. As part of this process, principals and directors present their total budget to the business office and the Superintendent of Schools. Also, as part of the budget development process, "decision packages" representing requests for new staff, programs, and/or equipment may be submitted to the Superintendent for review. Decision packages are compiled and presented to the entire administrative team to be prioritized before they are sent to the Fiscal Subcommittee of the Killingly Board of Education.
